# REVEAL

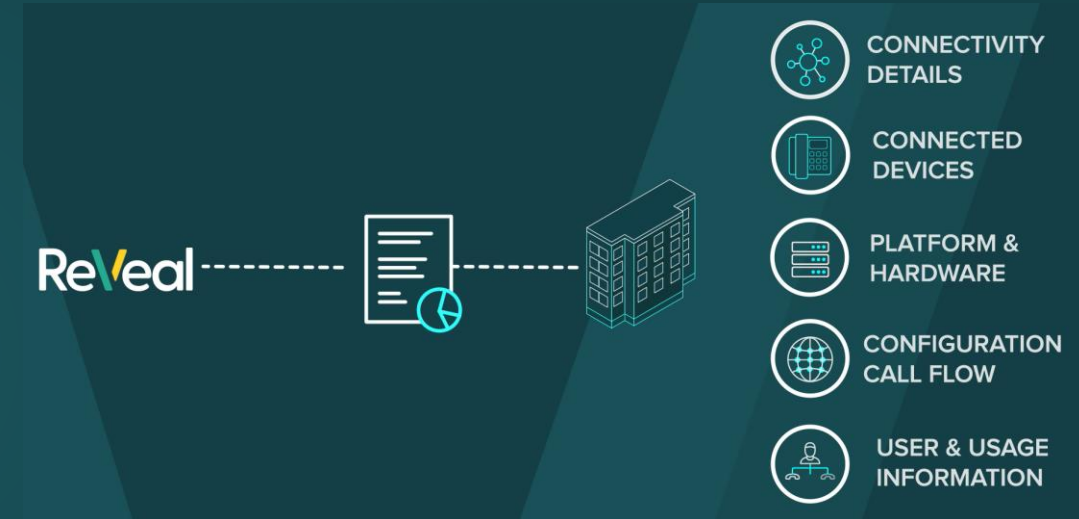

Get an accurate and comprehensive understanding of your telephony environment quickly to fast track your migration to the cloud. ReVeal – the automated voice system auditing service from Pure IP.

ReVeal utilizes the power of automation to provide a fast, accurate and comprehensive audit of your current PBX estate, enabling the creation of an insight-driven design and plan for migrating telephony to the cloud with Microsoft Teams.

Designed with multi-site organizations in mind, ReVeal fast tracks the process of collating the technical and configuration details of your current telephony environment, presenting it in an understandable and actionable format. Using intelligent software, ReVeal is able to process the data in a fraction of the time it would take using manual processes, saving you time and money.

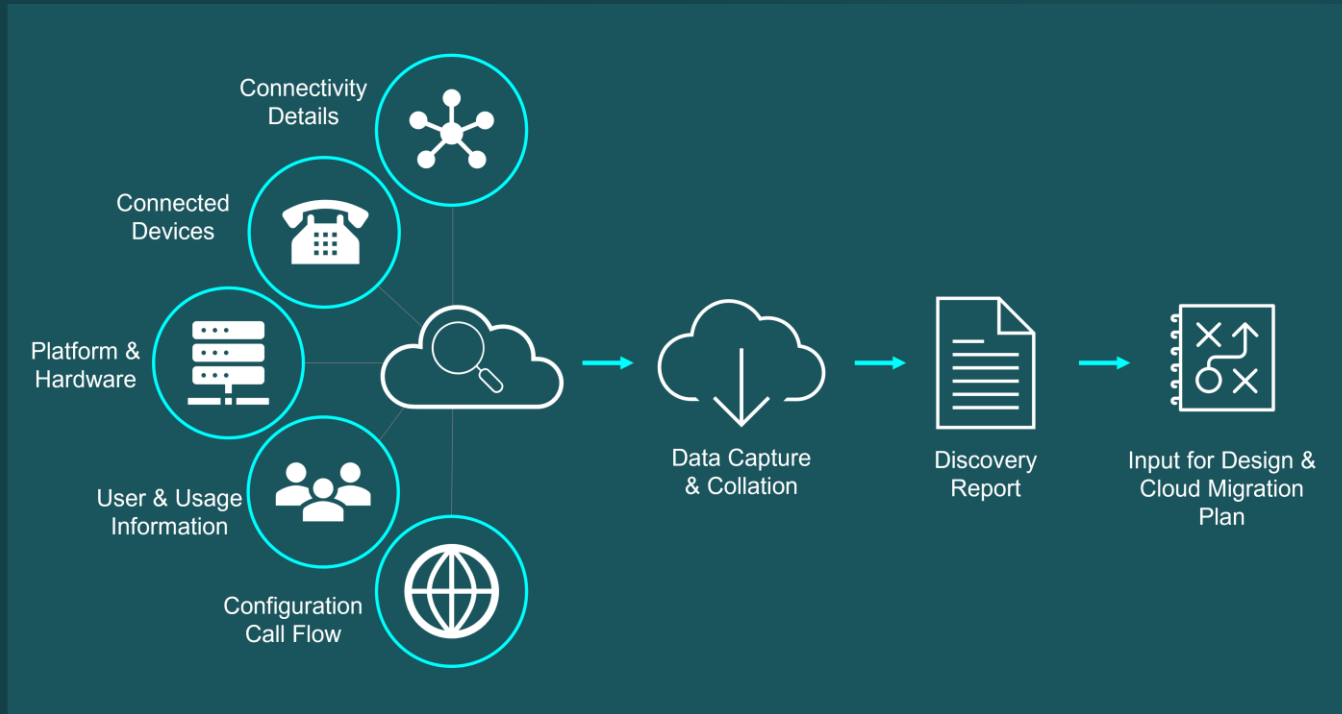

- Fasttrack the process of collating and structuring data
- Reduce the time, resources and costs associated with manual auditing
- Identify unused assets
- Normalisation of data for standardization, ease of use and more actionable insights
