

# Consulting Solutions Built on Microsoft

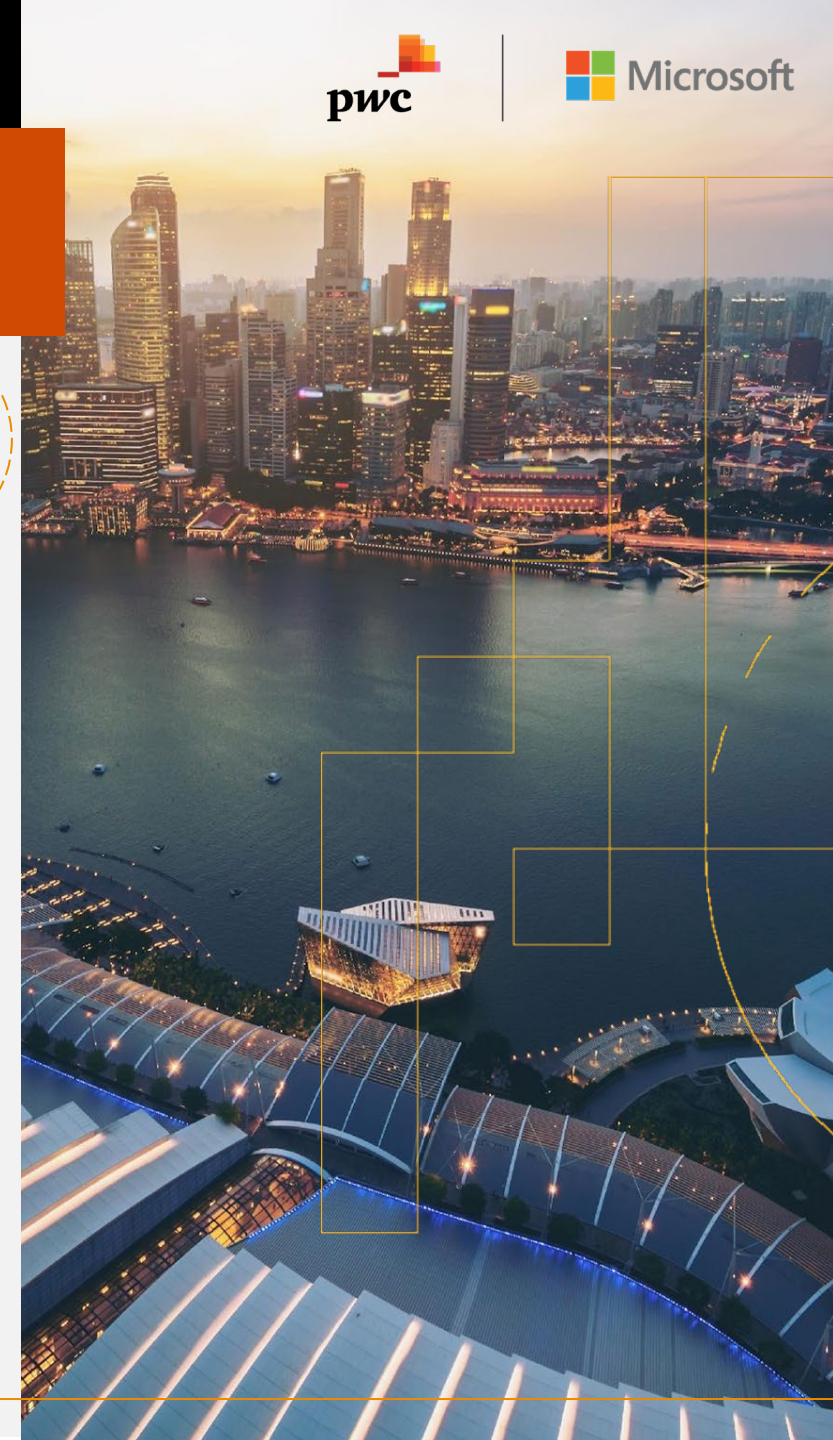

Delivering industry innovation and bold outcomes.

PwC's business-led strategies combined with Microsoft's technology-enabled solutions allows you to meet your business goals quickly while maintaining a realistic budget.

## Transforming Industries

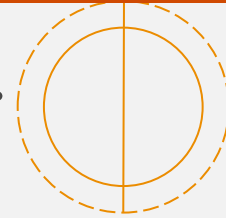

With nearly 200 years of industry leading knowledge and adaptability we balance successful transformation with the trust needed to avoid potential setbacks — so you can maximize the value of your digital investments, while minimizing risk. PwC offers proven solutions in:

-  **Financial Services:** Create a modern, compliant experience.
-  **Manufacturing:** Enhance the customer experience while boosting the bottom line.
-  **Education:** Bridge the gap between technology and traditional learning.
-  **Retail:** Boost customer engagement and loyalty with omnichannel transformation.
-  **Healthcare:** Focus on delivering quality care outcomes through increased collaboration and automation.
-  **Media & Entertainment, Real Estate and Technology:** Streamline operations and create connected experiences.

# Consulting Solutions Built on Microsoft

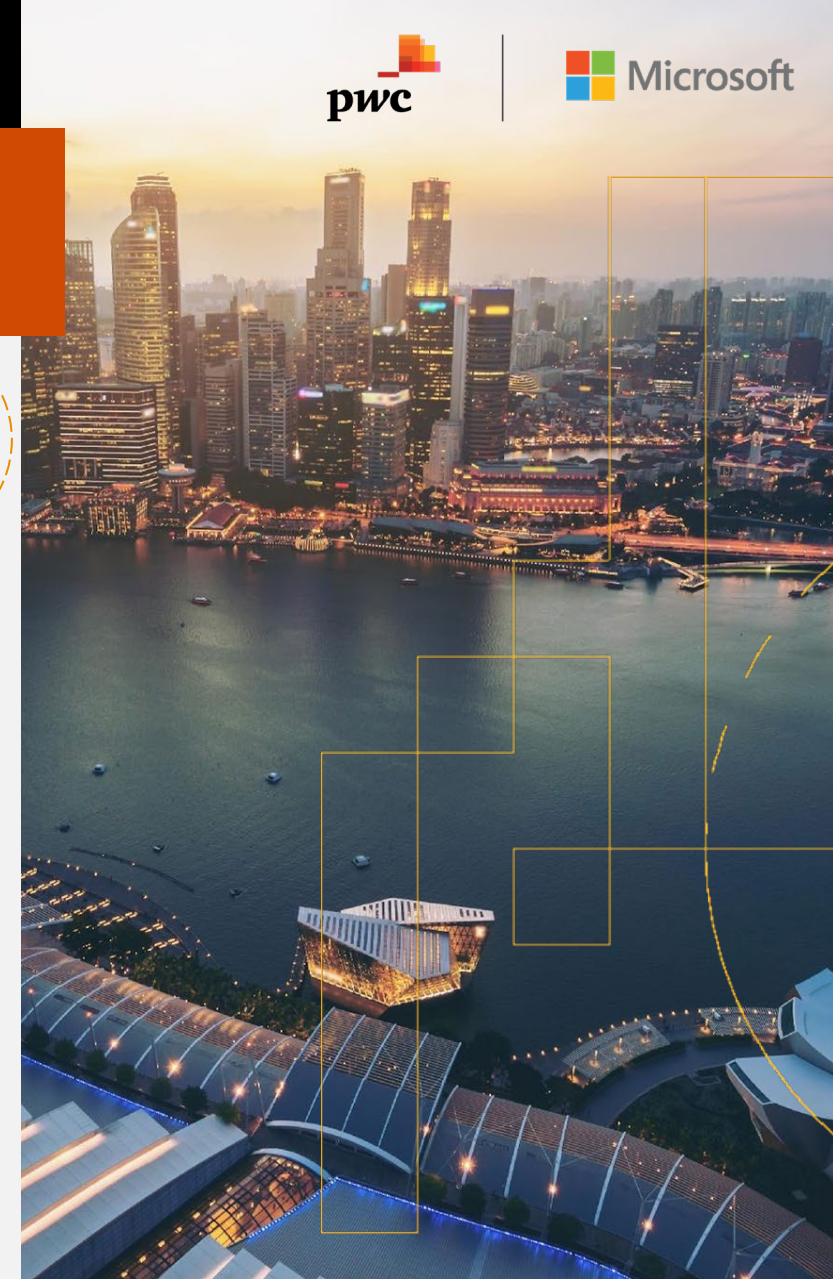

Cloud-based. Experience-driven. Future-ready.

## This is The New Equation with PwC and Microsoft

We're taught that  $1 + 1 = 2$ . Simple, right? But today's world isn't simple. So, what happens if we look at it from a new angle? Could we create something greater? If we bring together human ingenuity, passion and experience with the latest technology, we start to make something more. Building trust for today and tomorrow. That's The New Equation.

- 25,000+** Global Microsoft certifications obtained
- 9,000+** Global certified Microsoft consultants
- 2,500+** Global Microsoft engagement delivered
- 780+** Clients served globally on Microsoft engagements
- 450+** Microsoft Dynamics projects delivered globally

# Testimonials

## Manufacturing

*“The data supplied by (a global automotive conglomerate) and our business processes will be integrated into a comprehensive cloud architecture in all areas. This enables us to significantly improve our efficiency and speed. We increasingly think and act like agile tech companies enabling us to better serve our customers around the globe.”*

CEO  
Global Automotive Conglomerate

## Education

*“Our digital transformation with PwC represents the single largest investment and most significant operations achievement in the 130-year history of our organization...The solution has fundamentally changed our business model. Together with PwC, we have been able to digitally transform a paper-based system and deliver new innovative learning products and services.”*

Chief Executive  
Technology for Social Impact

## Healthcare

*“PwC is helping customers to enhance patient engagement, enabling more efficient collaboration among healthcare teams and delivering improved clinical and operational data and insights for better decision making across the entire care journey.”*

Patty Obermaier  
Vice President, US Healthcare  
Microsoft

## Financial Services

PwC's Poland Infinite Financial Solutions: *“This bold offering from PwC and Microsoft heralds the rise of the ecosystem orchestrator role, curating the elements and expertise required to rapidly build a digital bank.”*
