

# Consulting Solutions Built on Microsoft

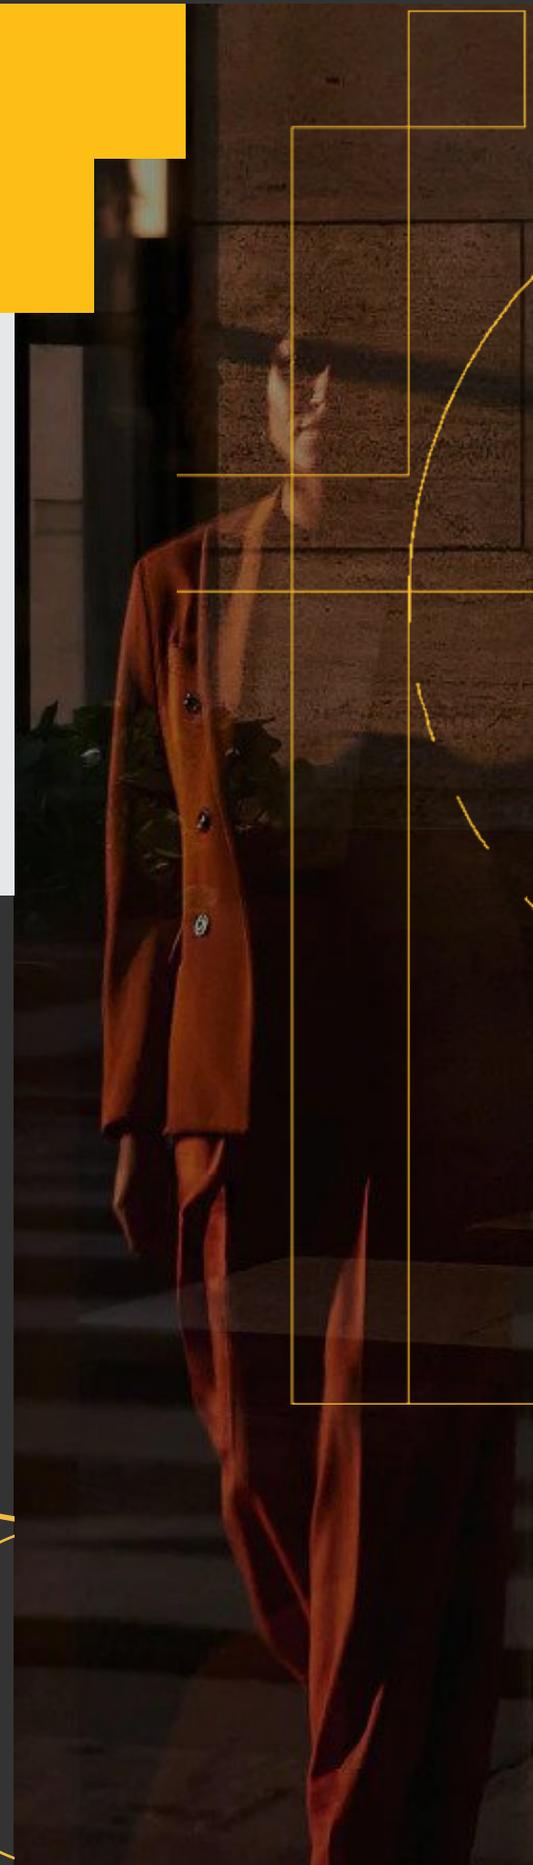

Industry innovation that helps build trust and delivers bold outcomes. This is The New Equation with PwC and Microsoft.

Cloud-based. Experience-driven. Future-ready.  
This is The New Equation with PwC and Microsoft.

We're taught that  $1 + 1 = 2$ . Simple, right? But today's world isn't simple. So, what happens if we look at it from a new angle? Could we make something greater? If we bring together human ingenuity, passion and experience with the latest technology, we start to make something more. Building trust for today and tomorrow. That's The New Equation.

## About our Microsoft advisory services

PwC has delivered over 2,500 projects to 750 clients leveraging the full breadth of Microsoft cloud technology. We have over 9,000 Microsoft certified global consultants and hold all 6 available Microsoft Partner Solution designations in Azure, Cybersecurity, Business Applications and Modern Work having achieved **11 Microsoft Advanced Specializations**, all working towards the ambition of being Microsoft's most Trusted Partner.

## Reimagining what's possible industry by industry

### Healthcare

PwC's [healthcare solution](#) combined with Microsoft's secure and flexible technology via [Microsoft Cloud for Healthcare](#) helps accelerate the business value of your healthcare cloud journey while helping reduce risk and increasing collaboration and automation, allowing you to focus on delivering quality care outcomes.

### Media & Entertainment, Real Estate and Technology

PwC and Microsoft help companies across industries build [Smart Venues](#) to help operations and create connected experiences with our [Game Day Experience](#) and [Smart Venues solutions](#).

### Education

[PwC Australia's Connected Schools Solution](#) is changing education, helping to empower students, teachers and school leaders and transform their experiences through the power of Microsoft.

### Financial Services

Together PwC UK & Microsoft have developed [Infinite Financial Solutions](#). This digital banking platform, built on [Microsoft Cloud for Financial Services](#), leverages the power of Microsoft Azure, Dynamics 365, Power BI and industry-leading FinTech ISVs to help create a more connected and simplified experience.

### Retail

PwC works with many of the world's largest retailers on their business transformation with our [PwC Poland's Azure Retail Growth Toolkit](#) and application modernization at scale with our Azure Modernization Factory.

### Manufacturing

[PwC's Smart Factory](#) tech-enabled services combine digital, modern and foundational capabilities, through our 'value first, outcomes back' approach, to help drive manufacturing to become more flexible, more efficient and less prone to interruptions.
