Power Platform: 3-Day Hackathon

Is your organization already developing first applications with the Power Platform?

You want to promote the use of the Power Platform and upskill your employees further?

Do you want to engage your employees in rapid and collaborative app development event?

Ideate   **Build**   **Use**

Why work with us?

- PwC supports you on you **low-code journey** – from low-code strategy to use case implementation. We are a reliable partner with a broad service offering to speed up digitalization and automation in your company
- PwC offers a broad range of **knowledge** and **project experience**
  - IT & **Business competence**
  - Extensive **use case** repository
  - **UI/UX** competences
- PwC is a Microsoft Gold Partner and has **strong relationships, broad network** and **competent nearshore resources** to enable **out-side-in views and** deliver the best solutions for you.

"We finished a prototype in 3 days"

„It was great to learn more about Power Platform and its capabilities"

„A hack buddy really helped us a lot in developing our solution"

Let your employee engage in **rapid** and **collaborative Hackathon** and co-develop with PwC's specialists the Power Platform Solutions.

Your situation

- The **Power Platform** has **already** been **implemented** in your organization
- The **app development** is **progressing slowly** and could be accelerated
- Your **employees** could **intensify** idea generation for further **app developments**
- **Employees** and **management board** are **not** yet **convinced** that low-code applications can be implemented in a short time

Perspective

- We organize a **3-day hackathon** in which your **employees implement** with our hack-coaches **use cases** in the fastest possible time
- We assist with the **internal organization** and **communication** of the **workshop**, selecting with you the **most valuable use cases** and leading the workshop to an internal flagship event
- In additional **ideation workshops**, we help employees to **generate** further **ideas** for additional applications

Payoff

- **Increased acceptance and awareness** of the power platform and Citizen Development concept
- **Increased level of knowledge** through employee-centric training
- **Increased development activities on the Power Platform** so your organization realize the added value and capabilities of the platform
- **Best Practice insights** by the PwC's low code specialists
