

# Rethink the Future of Work and deliver an exceptional employee experience in order to support hybrid work, fostering inclusivity and work-life balance.

## Employee Experience allows:

- Your Company to improve **employee wellbeing, motivation and satisfaction** which leads to optimized **company culture** and **reduction** of employee **turnover and costs**
- Your employees to access relevant **information more quickly**, feel more engaged to **participate in decision-making** processes, and to improve their **work-life balance**
- Your managers to better **understand** their **employees' needs and expectations**, increase **transparency** leading to improved **communication** and **collaboration**

## To unlock the full potential you need:

- (1) A **clear understanding** of the value and capabilities of an Employee Experience Platform
- (2) A **clear vision** and operating model to utilize the benefits of Employee Experience
- (3) First **use cases** and a holistic **roadmap** to start your journey

## PwC helps you to identify your current needs and challenges of Employee Experience and creates a holistic roadmap to start a thriving culture with engaged employees and inspiring leaders

Understand the **value** of Employee Experience

Define your **operation vision** and identify **first use cases**

Frame your **challenges** as **opportunities** for design and identify first use cases

Identify **concrete areas** to be leveraged with the Viva Platform

Create a **strategic roadmap** on how to start your Viva Platform journey

## How we support you:

- **Analysis** of **target groups** and **stakeholders** as well as existing **systems** and **processes**
- Ensuring **compliance** with **privacy** and **security policies** to safeguard employee data confidentiality
- **Consultation** on selecting appropriate solutions, **implementation**, **customization** and **integration** into existing systems and processes
- **Training** and **support** for employees and leadership, formation of cross-functional teams
- Development of continuous **improvement measures** through regular feedback and **data analysis** to measure the **business value** of the platform
