

Cloud Scale Analytics POC

A complete development lifecycle that results in a fully working solution

Business Outcomes

 POC provides a test bed where we can briefly elaborate the capability of analytical layer on cloud environment

 Azure high level design, Analysis and Planning report, Pre-Engagement Questionnaire

Investment

5 Days
\$7,500

What you can expect

1

Scope

- One Business Use Case (one to two fact tables / 3 – 5 Dimension)
- One Dashboards / Two Reports
- **Evaluation:** Review of your requirements for cloud analytics and appraisal of existing candidate systems you may be considering moving to the cloud.
Design: Architectural proposals for discussion and approval, costing and implementation details.
Delivery: Proof of Concept system developed and hosted in the cloud, demonstrated to stakeholders.
Review: Together we'll measure the success of the project and devise your next steps.

2

Approach

- This cloud analytics proof of concept engagement starting at **5 days** duration will focus on any aspect of your data estate, helping you build on your understanding of cloud concepts and offerings, so you can:
- Identify the potential future value of enhancing your data platform
- Define your path to harnessing cloud-native data analytics
- Showcase the functionality of the cloud to your stakeholders, using a proof of concept with data they know

3

Deliverables

- By the end of the engagement an industry focused dashboard will be delivered, backed by an Azure hosted data warehouse which will enable business leaders to manage up to 5 key KPIs as an enabler for business growth and improvement.

Up to 1 week
