Increase profit, lower cost, and uncover new opportunities with predictive analytics

Microsoft Azure

ABOUT QUADBASE SYSTEMS INC.:

Quadbase Systems Inc. provides predictive analytics as a service. Data is among an organization's most valuable assets. Are you taking full advantage of your data to drive the best business decisions?

We democratize predictive insights. Via machine learning and AI techniques, we help you move beyond traditional BI tools and Excel to harness actionable predictive insights quickly and cost-effectively.

WHAT WE OFFER

We leverage Microsoft Azure Machine Learning, Azure Databricks , Python, Microsoft R, Azure SQL, and Power Platform to provide inventory management, sales forecasting, marketing campaign optimization, customer retention, product recommendations, intelligent chat bot, object recognition, fraud detection, sentiment analysis and more.

We offer:

- Free demo and project assessment
- Low-cost proof of concept (POC)
- Free trial period
- Fixed-cost implementation, with subscription-based deployment and managed service

We provide:

- Guidance on defining use cases with your team
- Custom-built creative solutions
- Custom data visualization and reporting
- Continuous monitoring, evaluation and tuning of predictive models

Your organization receives:

- Actionable insights based on performance metrics
- High-impact return on investment (ROI)
- Increased productivity and profit
- Lower costs and inventory

WHAT OUR CUSTOMERS ARE SAYING

"Quadbase Systems Inc. has delivered excellent predictive analytics that we use for our purposes and for our clients in our ERP for manufacturing inventory management, fixed asset depreciation, supply chain management, demand forecasting, and more."

— Matthews Estrice, Executive Director, ProInvest

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

Be future-ready

Continuous innovation from Microsoft supports your development today and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise-grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

Build on your terms

You have choices. With our commitment to open source and support for all languages and frameworks, you can build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support for Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90 percent of enterprises globally.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With its $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
