

BluForge
UNIFIED SECOPS

**Defend Faster.
Respond Smarter.
Stay Secure.**

The Modern SOC is Broken. It's Time to Forge a New Defense.

Your team is drowning in alerts. Your tools are siloed.
Your risks are growing. In a world of machine-speed attacks,
a manual, reactive security posture is no longer an option.

Fighting Complexity with Complexity Isn't Working

BluForge
UNIFIED SECOPS

Alert Fatigue & Analyst Burnout

Your experts spend 80% of their time chasing low-fidelity alerts, missing the critical threats hidden in the noise.

Tool Sprawl & Silos

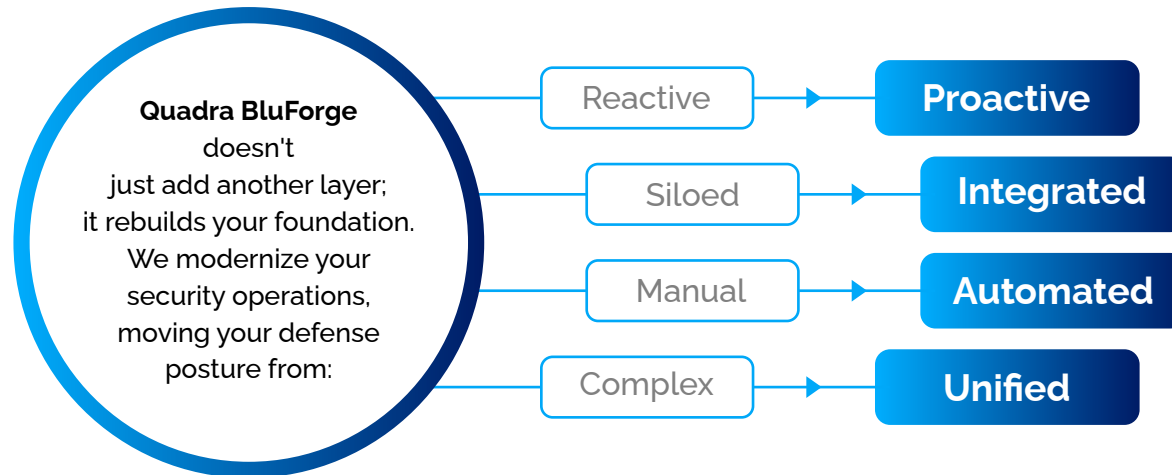

With an average of 45 security tools, gaps in visibility are inevitable. Attackers thrive in these blind spots between your endpoint, cloud, and identity solutions.

The Widening Skills Gap

Finding, hiring, and retaining elite cybersecurity talent to run a 24/7 operation is costly and nearly impossible in today's market.

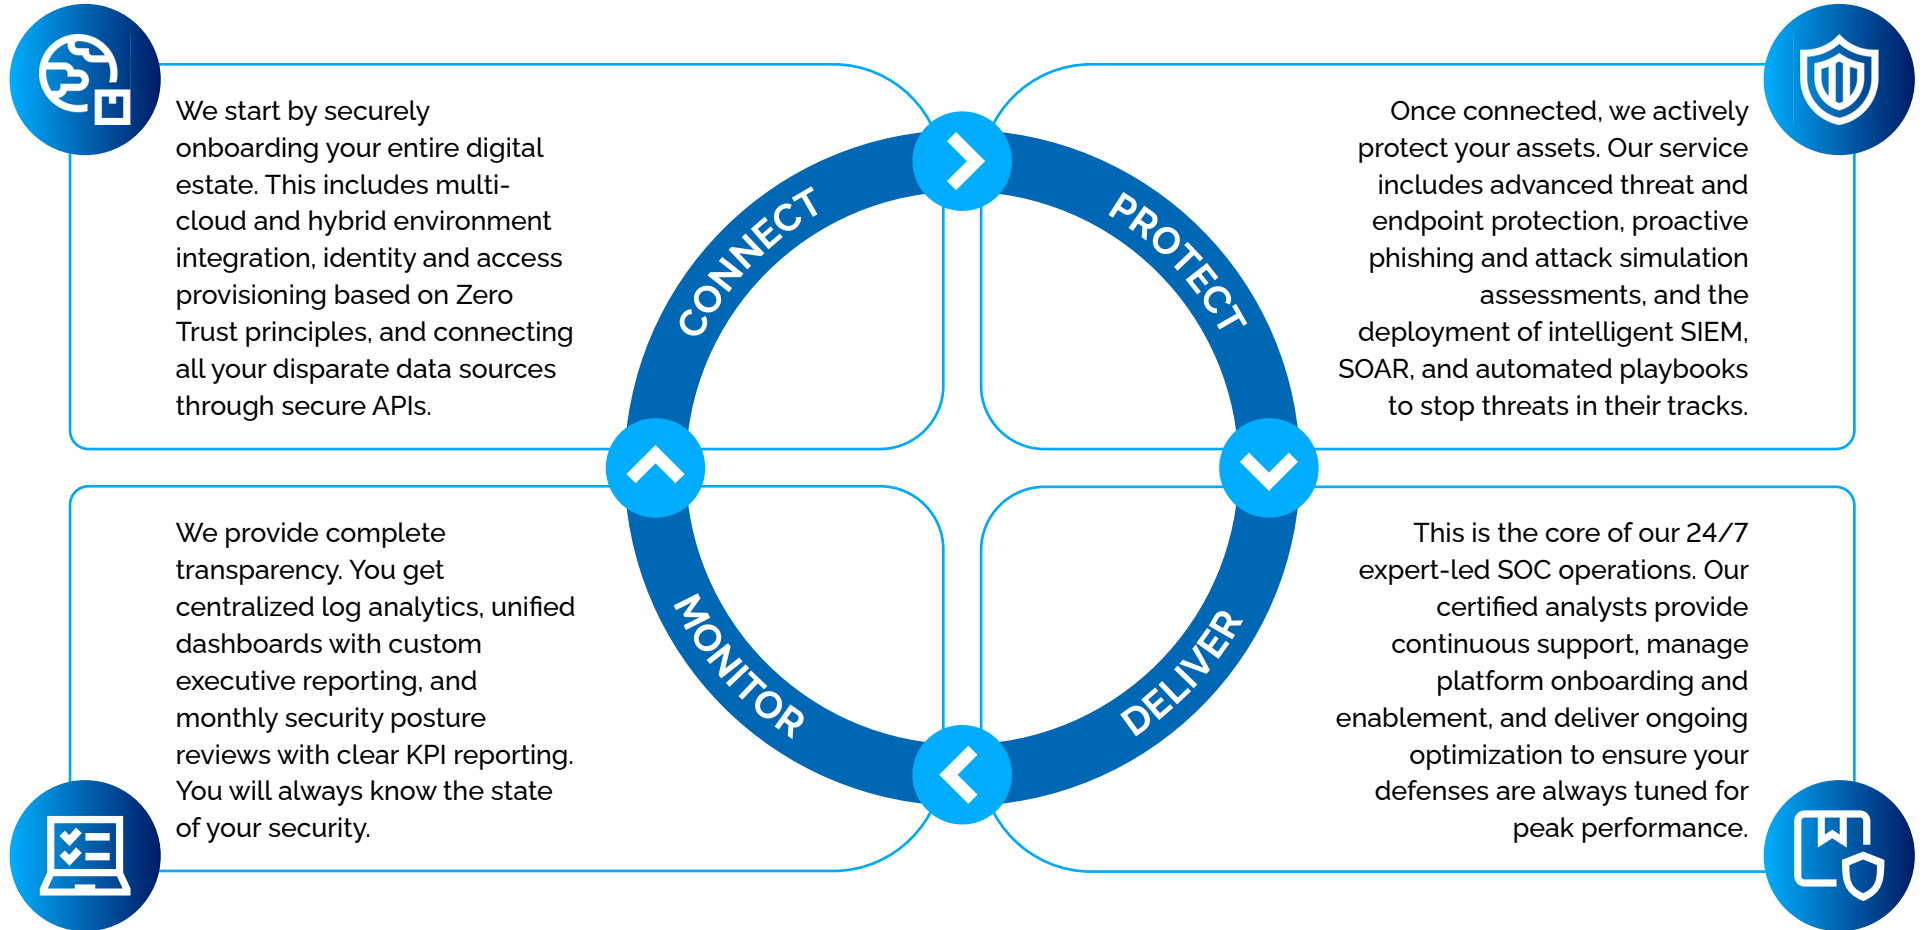

BluForge Enables a Paradigm Shift

We integrate our expert team with the power of Microsoft Sentinel and Defender XDR to provide one seamless service that sees everything and acts instantly.

A Continuous Cycle of Protection and Improvement

Quadra BluForge delivers comprehensive value through a continuous, 360-degree operational lifecycle. We are your end-to-end partner in cyber resilience.

A Security Partnership Tailored to Your Needs

Whether you need a fully managed SOC or an expert team to augment your own, the BluForge suite has an engagement model that fits.

BluForge
UNIFIED SECOPS

BluForge Ops (Fully Managed)

End-to-end 24x7 SOC for complete peace of mind.

BluForge Pulse (Co-Managed)

Augment your team with our advanced threat hunting and automation.

BluForge Shield (Advisory+ Implementation)

Proactively fortify your security posture with expert-led implementation and advisory.

BluForge Assist (Incident Response)

Retainer-based access to elite responders when you need them most.

The BluForge Advantage: Proven Results

Why partner with Quadra? Because we deliver measurable outcomes.

<30 Days

Fast and efficient onboarding to accelerate your time-to-value.

>95%

High-fidelity alert accuracy to eliminate noise and focus on real threats.

~40%

Significant cost reduction compared to building and staffing a traditional SOC.

Ready to Forge Your Defense?

Take the first step towards a smarter, more resilient security future. Schedule a complimentary, no-obligation BluForge Discovery Workshop with one of our security experts.
