

Amplify culture and communications

Microsoft Viva Connections

Building an intelligent enterprise

**Quadra can help to rethink your business for the digital age,
and help you
build an Intelligent Enterprise.**

www.quadrasystems.net

Modernize your employee experience

The screenshot displays a SharePoint page for 'quadrasytems' with a modernized layout. The top navigation bar includes 'Home', 'News & updates', 'Resources', 'Help & support', and 'Edit'. The page features a main content area with a large image of a meeting and a video thumbnail. Below this are sections for 'Review new company policies' and 'Meet our quadra team members'. A right-hand sidebar contains 'FAQs [Sample content]' and 'Essential resources [Sample content]'. The page is saved as a draft on 3/15/2022.

- Use the new company app
- Set up your VPN
- New training opportunities
- Team collaboration and productivity

Modernize your employee experience

One place to connect with news, conversations and resources from across the organization

Tailor the experience to targeted employee groups, roles.

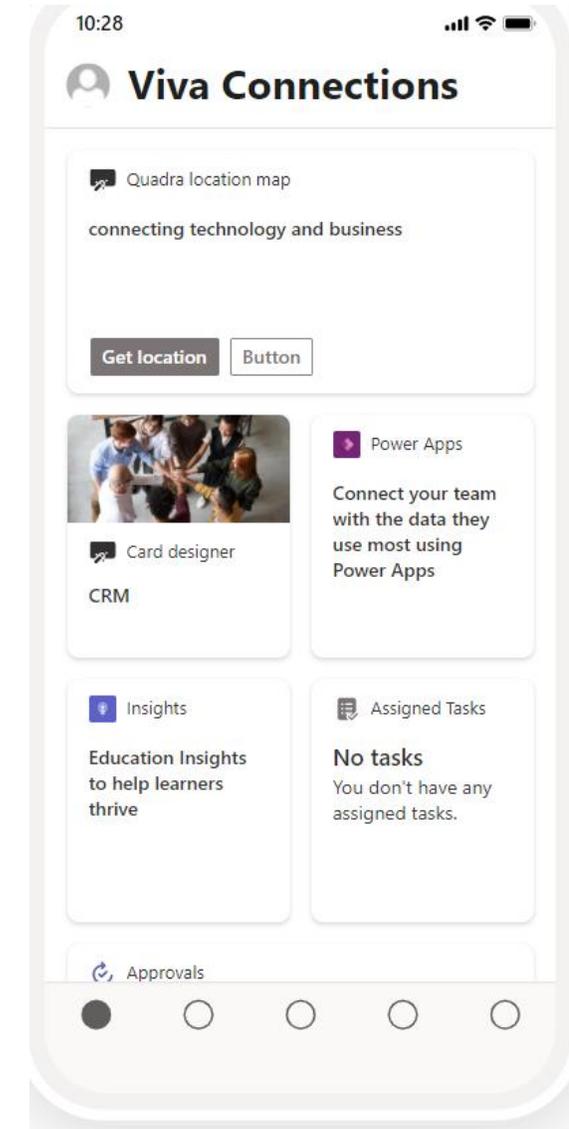

Brand the experience with name, icon, colors and logos reflecting your organization's identity

Personalized experience that delivers relevant content, information and resources, powered by Ai and Microsoft Graph

Create custom components that enrich the experience with powerful frameworks

Leverage your investments in SharePoint, Yammer, Teams, Stream, and Microsoft 365 security, compliance and identity

Integrate your investments in partner solutions from leaders including Workday and ServiceNow

Quadra will help you to deliver updates to the Right People at the right time by using Viva Connections

1

Scale up or down communications to keep everyone informed

2

Boost critical content to the top of employee feeds

3

Drive dialogue and engagement with announcements to specific communities or all employees

4

Leverage modern editing features to delegate posting, schedule publishing, and track impact

Empower people on the frontlines and connect with coworkers

Deliver a single destination for shifts, news, tasks, and discussions

Give frontline workers a connection to resources and company info

Create a resilient and agile organization by delivering a one-stop solution for connection

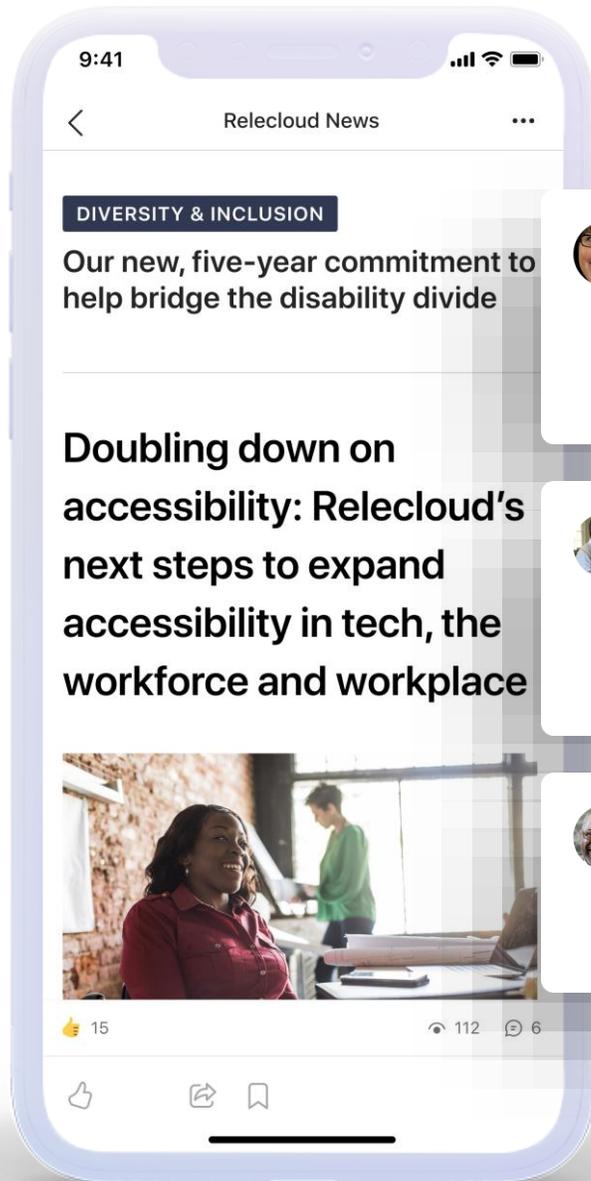

Encourage problem solving and ideation, across the entire workforce

Weigh in on important news and events happening at work

Stay on top of conversations from your communities

Encourage meaningful connections across the organization by enabling employees to easily discover relevant communications and communities.

Foster a culture of inclusion by empowering every employee to contribute ideas and share feedback

Align the entire organization around your vision, mission, and strategic priorities

How Quadra can help you in your journey

Analyzing the current environment

- Review your current modern SharePoint Online Intranet with a view to identify any blocker or changes that may be required to enable Viva Connection
- We will develop your global navigation and Viva connection dashboard in single destination for all the helpful company resource and tools you need as an employee, such as health checks, time off request and more.
- Our expert will work with your team to uncover use cases for the dashboard for both the launch and future consideration

Configure and implement Viva Connections

- Prepare intranet navigation design and content
- Designate a home site in SharePoint
- Enable the SharePoint app bar and customize global navigation
- Creating Dashboard, add cards, and apply audience targeting in SharePoint
- Configuring Feed with SharePoint news and Yammer
- Enable the Viva Connections app in the Microsoft Teams admin center
- Create a Dashboard and add cards
- Viva Connections app in the Teams Admin Center
- Embed Video news links in the Viva Connections Feed

Viva Connections Dashboard interaction

- Creating a site collection from SharePoint look book template service.
- Branding of the site (including webparts and analytics to measure employee engagement, multilingual support, and external sharing).
- Configuring a news framework (for example, news posts, audience targeting, and Yammer integration).
- Configuring your SharePoint home site, global navigation, and app bar.
- Setting up Yammer Native Mode and building Yammer communities.
- Deploying the Viva Connections app.

Thank you !
