QUANTIQ's configuration and implemetation of **Microsoft's Dynamics 365 Business Central Cloud** and **Microsoft Dynamics 365 Customer Engagement**

A flexible design, allowing new elements to be added as your business grows or your requirements change

Future Proofed Technology to Help You Thrive Through Dramatic Change

Transform Your Old ERP in Less Than a Month From Only £9,500.00*

At QUANTIQ, we understand that often the fear of the process is what puts organisations off modernising their operations and are delighted to have developed a solution which gives you the flexibility to start with the functions you need right now and adapt as your business grows.

If you are an organisation who needs a quality, modern ERP solution with best in-class functionality read on!

What is QUANTIQ's Business Central QuickStart?

Business Central QuickStart is QUANTIQ's configuration and implementation of **Microsoft's Dynamics 365 Business Central Cloud** and **Microsoft Dynamics 365 Customer Engagement.** Developed by our expert team to be well defined and easy to understand – pulling together functionality around the specific areas of the software and grouping them together, allowing you to choose only the packages that relate to your business requirements.

With a flexible design, new elements can be added as your business grows and to your current existing Microsoft Dynamics 365 system, meaning that you only pay for what you need!

1

Finance CORE and Finance Core+

QUANTIQ experts will work with you and your business to help you decide which package is right for you. The packages are designed to work from a CORE, providing you with flexibility right from the start - you can choose the CORE which is right for you and your business **now** and **adapt and add** over time, as your business requirements change.

Finance Core is an out of the Box solution where both set-up and configuration has been pre-defined and tested by our QUANTIQ Experts and includes*:
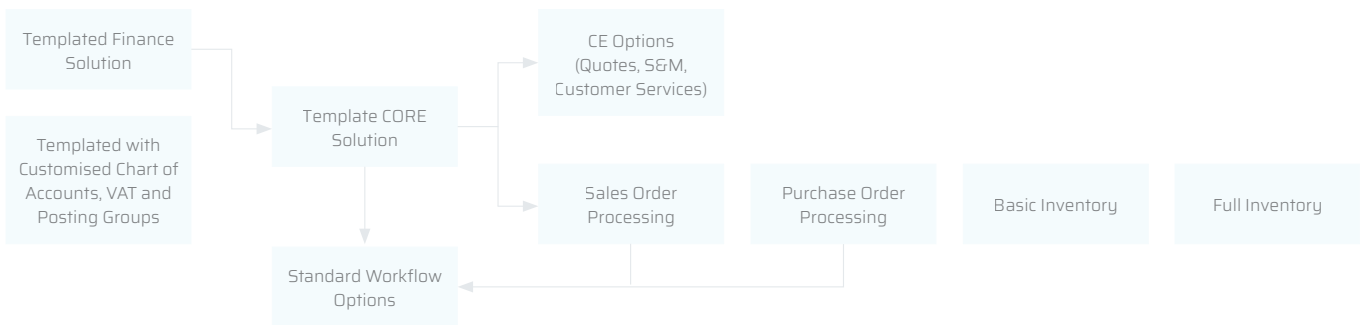

- Fully Customised Chart of Accounts
- Dimension Analysis
- Standard/ Recurring and Reversing Journals
- Multi-Currency
- Deferrals
- VAT Ready
- G/L Budgeting

- Full AP & AR functionality with Invoicing, Customers and Vendors
- Bank Management / Bank Reconciliation
- Payment Terms with calculated discounts
- Contacts
- Security Permissions
- Enhanced Document Layouts

Finance Core+ includes the Finance CORE functionality as well as the option to bring your own Chart of Accounts and VAT Setup from an existing system.

To enhance Finance Core and Core +, you can choose from several fixed price additional options.

- Choose from a selection of Approval Workflows (New Customer Approval, Credit Limit change, Sales/ Purchase Invoice Approval, Journal Approval and many more)
- Payment Export: Export BACS payments directly to your bank
- Statement Import: Import your Bank Statement directly into BC for reconciliation
