- Implement in Days
- Benefit from the existing structure of your NAV System Tables

What is the Business Central QuickStart NAV Accelerator?

QUANTIQ's Business Central QuickStart NAV Accelerator offers a streamlined transformational delivery model, enabling organisations to upgrade their existing NAV system to Business Central in an efficient and cost-effective manner.

Developed by our expert team, Business Central QuickStart NAV Accelerator exports data seamlessly from NAV 2009 and above and imports directly to Business Central, allowing you to leave behind any customisations and move forward on a completely standard, and fully supported system at a fixed price!

And what's more, QUANTIQ's standard [QuickStart Packages](#) can be implemented during the Business Central QuickStart NAV Accelerator to expand and grow the solution as and when you need it.

Business Central QuickStart NAV Accelerator – The Process

STEP 1

Review and Suitability

With your designated QUANTIQ Expert, your exact requirements will be discussed along with an initial review of your current system to assess suitability.

STEP 2

Export

QUANTIQ will export your master data from NAV.
(For minimal disruption, this can be undertaken outside business-critical hours).

STEP 3

Data Cleansing

Once your data has been extracted from NAV, you will have the opportunity to carry out a cleansing exercise on your data **(if required)**.

STEP 4

Data Import and Testing

Data will be imported to Business Central.

At this stage your designated QUANTIQ expert will address any Business Central specific set-ups that will need to be completed in your new system such as MTD, Users, Permissions etc.

In addition- opening balances for your old NAV system will be provided (GL Ledger, Account's Receivables/ Payables, Opening Balances, Inventory etc.) - these will be loaded to your new system ready to use.

STEP 5

Go-Live!

QUANTIQ will support you during each step of the process, with additional support collateral and learning materials to ensure you are fully supported in your journey to the Cloud.

STEP 6

QUANTIQ Support

Familiarisation training is available to ensure you are getting the most out of your new system! Plus, additional training on the **Power Platform & Power BI** can be purchased at an additional fixed cost if required **(with the ability to integrate seamlessly into your new system)**.

Learn More

Our clients can tell you that our expertise in streamlining business processes means we consult with a “less is more” approach. QUANTIQ will provide you with **only** what you need meaning that you only pay for what you need!

So, if you're ready to learn more about getting up and running with Business Central QuickStart NAV Accelerator [get in touch with our experts today](#) and we can measure your needs.
