

AI-Ready ERP Implementation

Accelerate modernization with Microsoft Dynamics 365 Finance & Supply Chain.

Quisitive's AI-Ready ERP engagement delivers a production-ready Dynamics 365 foundation designed to modernize your financial and operational processes while embedding intelligence from day one.

1 The Challenge

Legacy ERP systems limit agility, visibility, and scalability. Organizations need to modernize—yet traditional ERP deployments can be lengthy, risky, and disconnected from the promise of AI.

You need an approach that balances speed and stability, delivering a system that performs today and evolves intelligently tomorrow.

2 Our Solution: AI-Ready ERP Deployment

A structured 16–20-week engagement that delivers a fully deployed Dynamics 365 ERP foundation, configured to your core business processes and infused with AI insights.

Key Focus Areas

- **Modern Financial Management** – General Ledger, Accounts Payable, Accounts Receivable, and Cash Management
- **Operational Efficiency** – Procurement, Inventory, and Order Management
- **AI & Analytics Enablement** – Includes predictive cash-flow modeling, expense anomaly detection, demand forecasting, and Power BI dashboards powered by Microsoft Fabric
- **Data & Integration Readiness** – Data migration, cleansing, and integration to key systems
- **Governance & Compliance** – Security, approvals, and audit readiness

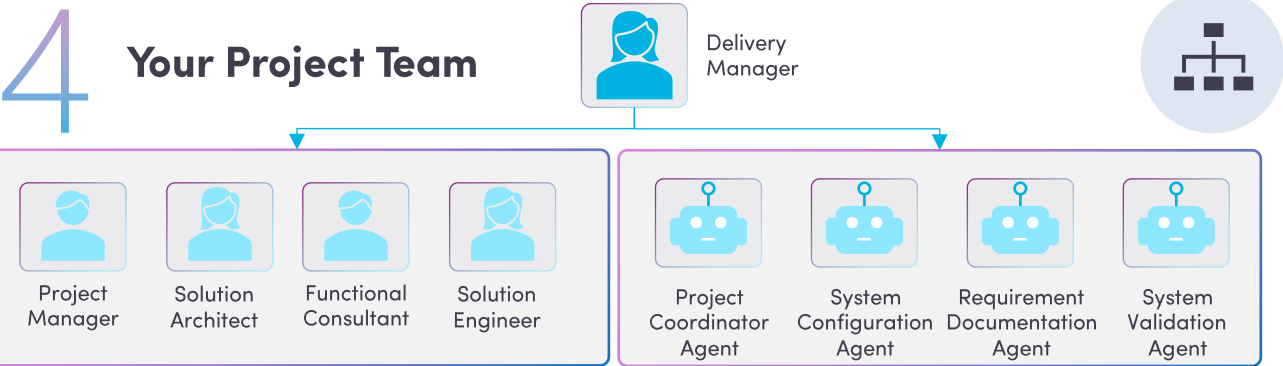

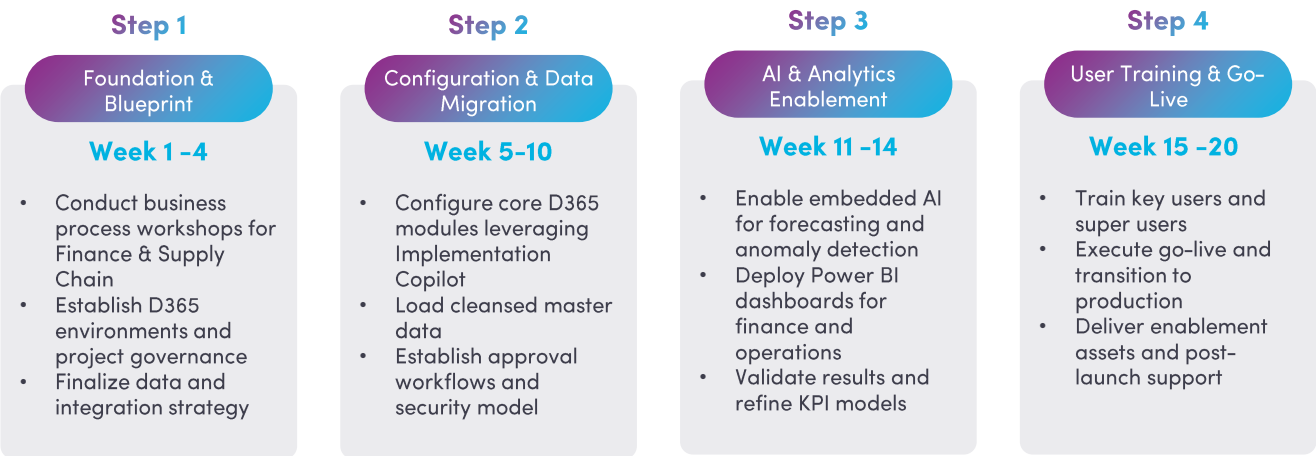

3 Your Path to Value

- Production Dynamics 365 Environment with core modules live
- AI-Enabled Dashboards for financial and operational insights
- Configured Integrations with payroll, CRM, or banking systems
- Security & Controls Framework
- User Training and Handover Documentation
- Deployment Roadmap for advanced modules and Copilot integration

Expected Results

- 30 % faster close cycle
- 20 % reduction in manual reporting effort
- Improved forecasting accuracy (± 10 %)

Your AI-Ready ERP Journey

AI Delivery Agents automate documentation, configuration, and validation tasks, enabling Quisitive experts to focus on solution design and business outcomes.

Why Quisitive

- Microsoft Solutions Partner for Business Applications and Data & AI
- Deep industry expertise across manufacturing, healthcare, retail, and services
- Proven methodology blending ERP deployment with AI enablement
- Pre-built accelerators, templates, and best practices for faster, safer implementations
- End-to-end delivery model – from strategy to optimization

Begin your journey toward an AI-powered enterprise with a Dynamics 365 ERP foundation built to scale.

Investment

\$275,000 – \$425,000

(Average savings of 20-40 % vs. traditional implementations through agent-assisted delivery)
