

Quisitive Managed AI Service

Take your AI capabilities to the next level with Managed Services

Organizations recognize the vast potential of AI to transform their business yet often face roadblocks to capitalize on the opportunity. A lack of AI strategy alignment and in-house resources with the necessary AI expertise to implement and maintain the strategy prevent many organizations from realizing their full potential.

Quisitive Managed AI Service helps businesses maximize their AI potential by overcoming these barriers. Using a fixed monthly cost model, Managed AI Service takes you through the AI journey from strategy development to long-term support, while ensuring expert risk management, compliance, and security throughout. Imagine a culture of continuous AI innovation that drives process transformation, increased efficiency, and data-driven decision-making. Quisitive can help you get there.

How does Managed AI Service work?

At Quisitive, we are here to help you on your full AI journey. AI Managed Services provides comprehensive support for AI initiatives, ensuring effective idea generation, management, security, and continuous improvement. You will work with a **Customer Success Manager** and **Managed AI team** to maximize AI potential, reduce risk, foster innovation and growth, and offer dedicated AI support for your business transformation.

The Managed AI Team will provide advisory services and monitoring supported by our EverWatch monitoring and alerting solution. Hands-on assistance including: prompt engineering, UI updates, additional deployments, incident remediation, cost optimizations, security improvements, or any services in the Subscription Services Catalog will be delivered via our Flexible Cloud Services (FLEX).

Business Value

Strategic Alignment

Align AI initiatives with business objectives to drive growth and innovation.

Risk Management

Implement robust governance and compliance frameworks while ensuring data privacy and security.

Operational Efficiency

Automate routine tasks, allowing staff to focus on higher-value activities.

Cost Optimization

Fully realize your AI spend on your Generative AI applications.

Employee Engagement

Grow employee skills, productivity and satisfaction through training and support.

Use Case Implementation

Fully implement your use cases into your AI platform.

Customer Satisfaction

Enhance service personalization, quality and responsiveness, leading to higher customer loyalty.

Competitive Advantage

Accelerate adoption of cutting-edge technologies and foster a culture of continuous innovation.
