Teams Phone Exploration Session

Get answers to your telecommunication questions

You want to modernize your business communications, improve employee productivity, and reduce costs of your current telephony system, but don't know where to start? Quisitive Productivity experts can help answer any questions you may have to find out if Microsoft Teams Phone is the best option for your particular telecommunication business needs.

Let Quisitive be your guide with a Teams Phone Exploration Session.

What It Is:

This one to two-hour virtual session is your first step toward discovering how to leverage your current or new phone system and enhance your digital transformation. We understand that some questions may be left unanswered when researching new telephony, PBX, or meeting capabilities, and we want to help you answer those to make the best-informed decision. Quisitive experts will walk through the features and capabilities of Microsoft's Teams Phone system.

What You Get:

High-level roadmap with the architectural recommendations that fits your business needs.

Who Should Attend:

- **Business Process Owner —** responsible for outcome(s) of business unit(s) and understands the core goals and metrics by which success is measured.

- **Expert Practitioner —** deeply understands and is involved in key operations, what the processes are, and how they are measured.

Why Microsoft Teams Phone:

- Teams provides the power of a **global enterprise phone system** with much more to help your team connect and be more efficient.

- **Access your contacts, history and voicemail** from Teams, right where you are working.

- **Make and receive calls** in Teams from anywhere, anytime.

- With Teams Phone, **leverage all of the powerful M365 capabilities** to do more, faster.

Companies switching to Teams for their telephony solution reported a **total savings of $648,727** over three years.
