Information Protection and Governance

Microsoft Intelligent Security Association

Microsoft Security | Microsoft Verified Managed XDR Solution

In today's digital landscape, organisations face a perfect storm of cyber security challenges. Attackers are evolving their tactics and using artificial intelligence (AI). Meanwhile cloud adoption has expanded vulnerabilities beyond traditional network boundaries, rendering conventional security measures inadequate.
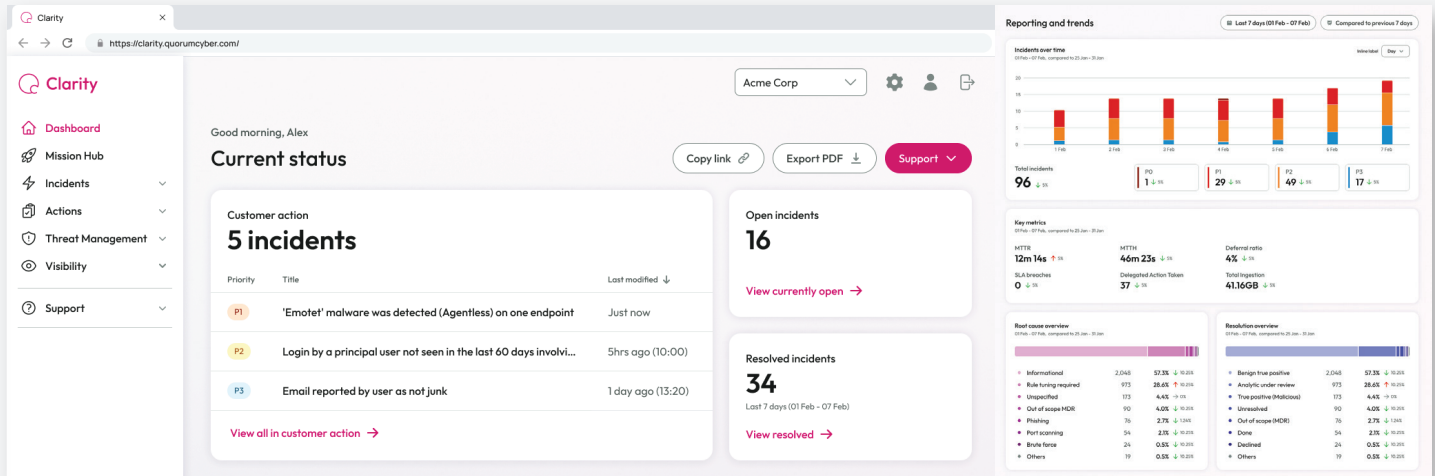

Introducing Clarity Protect

Quorum Cyber's integration of advanced security technologies, AI, and the expertise of our seasoned cyber security professionals, comes together to provide your organisation with a robust defence system. Clarity Protect allows your security teams to focus on core business operations, while we effectively mitigate risks. As a result, your organisation remains resilient in the face of evolving cyber threats.

Quorum Cyber's managed security service, Clarity Protect, brings security resilience in an era where attacks are inevitable. Our advanced managed solution safeguards your entire IT ecosystem, leveraging the power of Microsoft Defender XDR and Microsoft Entra ID Protection. The fully managed environment continually optimises your security controls, ensuring continuous protection.

Clarity Protect Benefits

✓ **Extensive Coverage of Threats**: Gain visibility across your entire IT ecosystem, including endpoints, data, email, identity, and multi-cloud platforms (AWS, GCP, Microsoft).

✓ **Proactive Protection**: Continuous refinement of your security measures to pre-emptively block threats, reduce attacker dwell time, and strengthen your overall security posture.

✓ **Real-Time Insights:** Stay informed with 24/7 access to our customer platform, Clarity, to see all security metrics and any incidents, plus how they are being managed. This powerful tool provides real-time visibility, enabling you to monitor your entire cyber security posture at a glance.

✓ **Risk Intelligence:** Optimise your risk profile through targeted improvements, and leverage board-level reporting.

✓ **Cost Efficiency:** Unify your security controls within the Microsoft ecosystem (typically reducing Total Cost of Ownership (TCO) by over 30%).

✓ **Optimised Security Posture:** Maintain an always-optimised solution that evolves with threats and your needs.

✓ **Team Effectiveness:** Empower your security teams to focus on critical issues and value-add activities rather than false positives.

✓ **Expert Support**: Rest easy, supported by Quorum Cyber's dedicated team of security experts, including specialised threat hunters actively identifying and neutralising potential threats.

Why Quorum Cyber?

We are passionate about cyber security and we're obsessed with helping you achieve your goals. Everything we do is geared towards helping you win.

We are Microsoft experts – we are a proud Microsoft Solutions Partner for Security and a member of the Microsoft Intelligent Security Association (MISA).

Flexible service which we refine based on your precise cyber security needs and risk profile.

No vendor lock-in and a flexible subscription model – the technology is yours, you can move at any time.

Continuous improvement – attackers don't stand still, so our services don't either. We continually improve based on customer feedback and current threats.

We work with multiple security frameworks and standards and are constantly developing and evolving our knowledge within our expert teams. Our experience includes but is not limited to:
