Microsoft Security Copilot Integration Services

Quorum Cyber

Defeat AI Cyber Threats with Microsoft Security Copilot and Quorum Cyber's Expertise.

Cybercriminals are using AI to launch faster, more evasive attacks that bypass traditional security measures. To counteract these accelerated AI-driven threats, security teams can harness the power of AI to gain efficiencies, outpace adversaries, and proactively neutralize AI-powered threats before they cause damage. Fight fire with fire: by leveraging AI on the defensive side, organizations can stay one step ahead to protect against evolving cyber threats.

#WeFightBullies

## Microsoft Security Copilot Integration Services

Microsoft Security Copilot, helps protect organizations at the speed and scale of AI with a generative AI-powered assistant for daily operations in security and IT. As the industry's first generative AI security solution, Security Copilot is designed to uplift cyber defender skills, boost efficiencies, and uncover hidden risks.

Quorum Cyber specializes in helping organizations fully integrate Microsoft Security Copilot into their security ecosystems.

By integrating your existing Microsoft Security and 3rd party tools with Security Copilot, we enable you to maximize its capabilities for real-time threat detection, incident response, and security posture management.

Our services are delivered by certified subject matter experts, with a focus on delivering cost effective Microsoft Security Copilot solutions.

Stay ahead and secure with AI-driven defense.
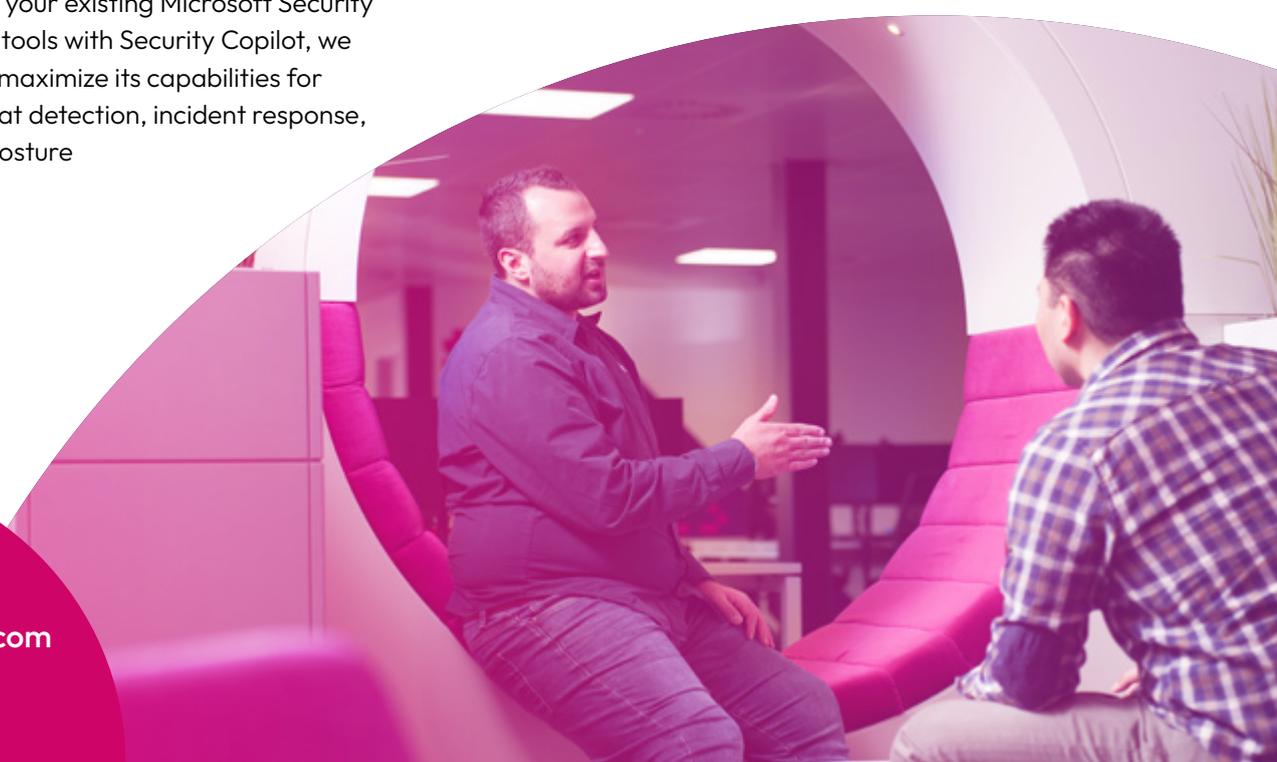

Microsoft Security Copilot: Industry-first GenAI cyber operations solution

Microsoft Security Copilot is more than just a tool—it's a game-changer for modern cybersecurity. With Quorum Cyber as your partner, you'll harness the full power of generative AI to protect your organization at the speed and scale required in today's threat landscape.

At its core, Security Copilot allows defenders to use natural language to triage incidents and perform administrative tasks through native and custom integrations with:

- ✔ Microsoft Sentinel
- ✔ Microsoft Defender XDR
- ✔ Microsoft Entra
- ✔ Microsoft Purview
- ✔ Microsoft Defender for Cloud
- ✔ Other Microsoft and 3rd party security tools

Benefits:

✔ **Reduce the burden** from overtaxed security teams

✔ **Maximize Microsoft Security** technology return on investment

✔ **Consolidate, integrate and streamline security processes** through Microsoft Security Copilot

✔ **Develop custom plug-ins,** prompts / promptbooks, and other automations to solve customer operational challenges

✔ **Ensure alignment with deployment best practices** and industry compliance requirements

What's included

- ✔ Detailed project plan considering customer team bandwidth and constraints
- ✔ Business case development for core use cases to ensure financial viability
- ✔ Custom design and deployment tailored to your environments and policies
- ✔ Training and knowledge transfer ensuring that your teams understand what's been implemented
- ✔ Comprehensive build book ensuring that the implemented solution is fully documented
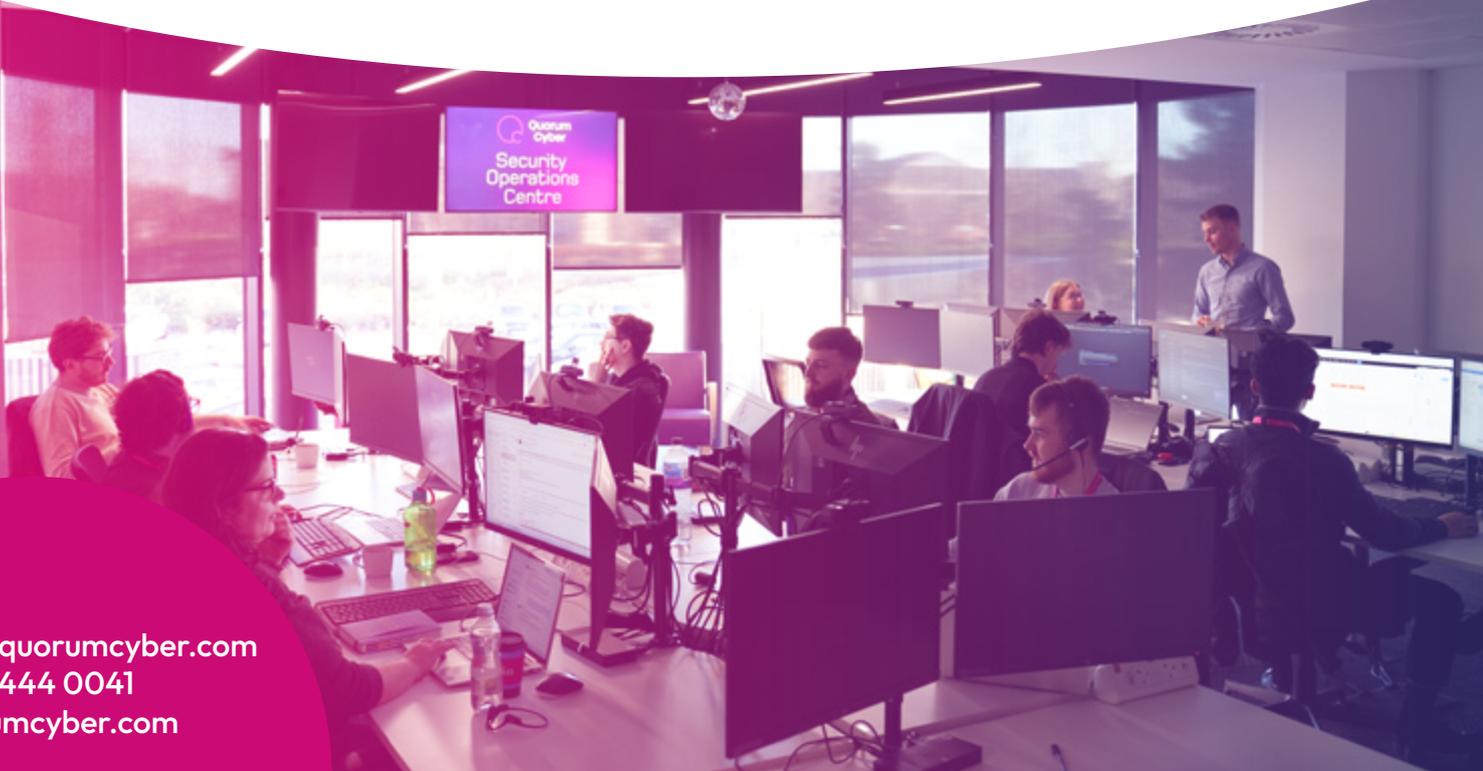

Why Quorum Cyber?

We are passionate about cybersecurity and we're obsessed with helping you achieve your goals. Everything we do is geared towards helping you win.

We are Microsoft experts - we are a proud Microsoft Solutions Partner for Security and a member of the Microsoft Intelligent Security Association (MISA).

Flexible service which we refine based on your precise cybersecurity needs and risk profile.

No vendor lock-in and a flexible subscription model - the technology is yours, you can move at any time.

Continuous improvement - attackers don't stand still, so our services don't either. We continually improve based on customer feedback and current threats.

We work with multiple security frameworks and standards and are constantly developing and evolving our knowledge within our expert teams. Our experience includes but is not limited to:

CIS. Center for Internet Security®

ISO

National Cyber Security Centre

NIST

NHS Data Security and Protection Toolkit

PCI Security Standards Council®
