

Security Maturity Assessment

Learn why organisations trust Quorum Cyber to help them reduce risk and build cyber resilience.

Cyber

Peace of mind starts with knowing your security posture

In today's fast-changing cyber security landscape, outdated defences can leave your organisation vulnerable. A Security Maturity Assessment (SMA) puts you back in control. It evaluates your current cyber security measures, identifies critical gaps, and provides clear, actionable insights tailored to your business needs, ensuring you are prepared, protected, and positioned for long-term resilience.

#WeFightBullies

The path to cyber resilience starts here

Our SMA uses the trusted NIST Cyber Security Framework (CSF) to deliver a clear, structured view of your current security posture. Through interactive benchmarking workshops, we assess your organisation's capabilities and compare them against industry standards and target maturity levels.

You'll receive a comprehensive report highlighting critical gaps, strengths, and opportunities for improvement all mapped directly to your business priorities. To further support long-term resilience, a tailored security roadmap can be included, designed to guide your strategic planning and cyber investment. With SMA, you gain more than insights — you gain a clear path forward.

“The team is very knowledgeable with their delivery, so we feel really confident in our security maturity and that we're being looked after. I sleep much sounder knowing we have the Quorum Cyber team looking after us.”

Benefits of doing a Security Maturity Assessment

Unlock tailored insights, maximise your security investments and build a future-proof defence – a SMA empowers you to

✓ **Get ahead of threats:**

Our SMA is custom-engineered to your organisation's specific cyber security needs, so you're informed and prepared for emerging cyber security challenges.

✓ **Elevate your cyber security confidence:**

We go beyond best practices with expert-led solutions, integrated threat intelligence, and built-in response capabilities — delivering real-world outcomes that drive resilience.

✓ **Gain strategic insight into cyber security spend:**

Our SMA highlights where to prioritise your budget, helping you align costs with real risks and business needs.

Why Quorum Cyber?

We are passionate about cyber security and we're obsessed with helping you achieve your goals. Everything we do is geared towards helping you win.

Flexible service which we refine based on your precise cyber security needs and risk profile.

We are Microsoft experts - we are a proud Microsoft Solutions Partner for Security and a member of the Microsoft Intelligent Security Association (MISA).

We work with multiple security frameworks and standards and are constantly developing and evolving our knowledge within our expert teams. Our experience includes but is not limited to:

National Cyber Security Centre
