

Entra ID HR Driven User Provisioning Assessment

With Entra ID HR Driven User Provisioning you can remove aging infrastructure like Microsoft Identity Manager or other third party solutions.

Together, we will determine what existing or new user provisioning capabilities can be moved to Entra ID HR Driven User Provisioning

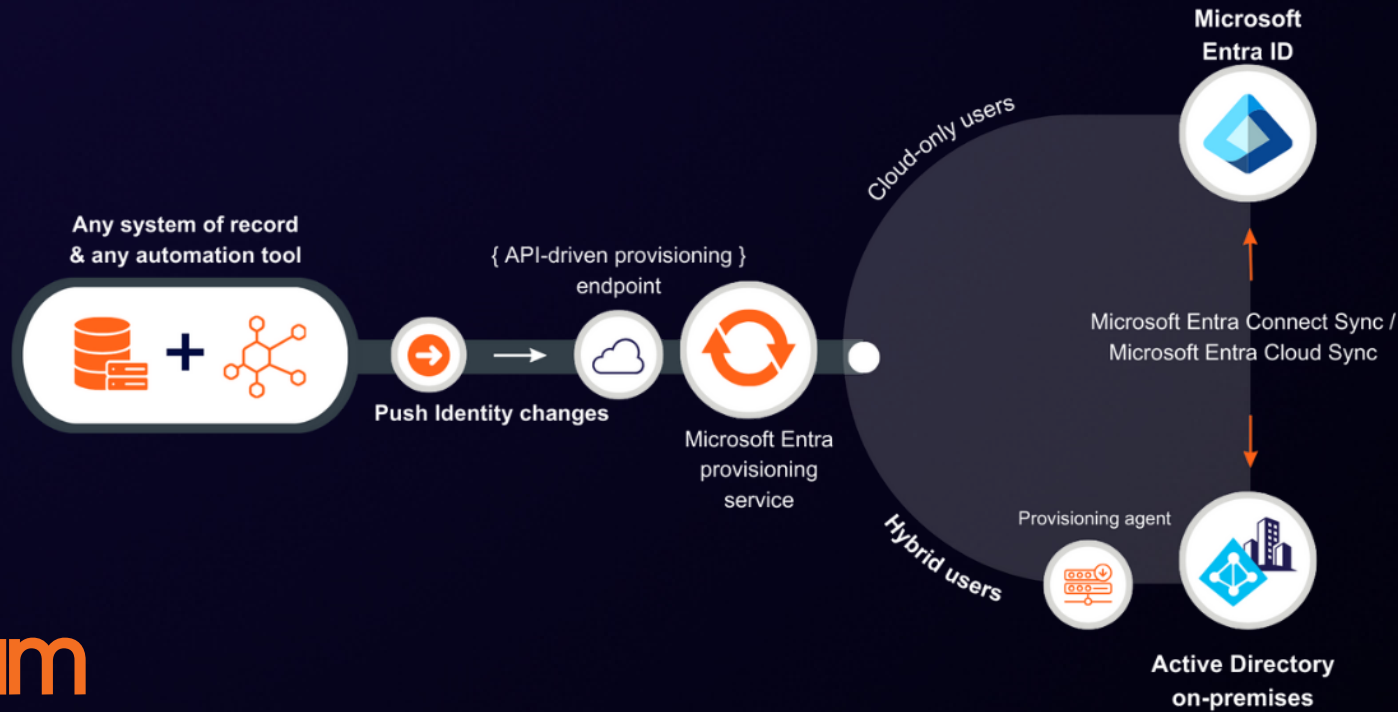

As organisations embrace cloud technologies and additional capabilities, they're also adopting new approaches for identity life cycle management and user provisioning. With Entra ID HR Driven User Provisioning you can remove aging infrastructure like Microsoft Identity Manager or other third party solutions.

The Entra ID User Provisioning Workshop and Assessment provides the following:

- An experienced Quorum consultant and project manager for up to 10 days.
- A high level design document that will contain information on the current state, future state of identity provisioning and the recommended implementation strategy.

Our Assessment delivers a future blueprint for identity lifecycle management. This assessment

- 1 Customer stakeholder workshops to discuss current and future states
- 2 Understanding of current identity
- 3 High Level Solution Design
- 4 Best Practice and guidance to support Entra ID User Provisioning
