

Radix

Company Deck

**We leverage
Artificial Intelligence
to get you ahead.**

Together with you we discover, design
and deploy transformational AI
solutions.

About Radix

We are an Artificial Intelligence agency
We invent, design and develop robust and innovative AI-powered software solutions.

We empower organizations with AI, leading them to increased productivity and profitability.

Our services

Discover AI opportunities

Together with our clients, we discover how AI can be used as a lever for their business

Deliver AI solutions

Develop enterprise-grade and scalable AI solutions that deliver the best user experience

Build AI teams

Help clients build their own AI teams by transferring our knowledge on AI discovery and solution delivery through hiring, training, and coaching

We're trusted by

Our approach

Based on our experience, we believe that these 4 elements are essential ingredients to the success of the project:

Measure
and maximise
the impact

Understand
the end-user

A working
solution from
the start

Fast iteration
through Agile
development

Capabilities

- **AI Strategy**
