# RAKE

Seamlessly work anywhere, anytime, using any device

ABOUT RAKE VIRTUAL DESKTOP:

RAKE Virtual Desktop as a service enables your workforce to move to the cloud seamlessly. The process is automated, so deployment is quick and simple, managed entirely by our Azure expert team. Keep your business on track and your data secure while your team gets work done wherever they work best.

WHAT WE OFFER

The modern work experience means working where you're most productive—at home, in the office, or anywhere else. RAKE Virtual Desktop enables your employees to seamlessly access all the tools they need to get work done from anywhere, anytime, using any device.

By harnessing advanced technology and expertise, our Microsoft Azure-trained engineers deliver and manage your multi-session Windows 10 Windows Virtual Desktop environment, including access to Microsoft 365 apps and other desktop and web applications your workforce uses every day. Azure Security Center gives you defense in depth with its ability to detect and protect against threats.

Modernize your business while keeping your data secure with RAKE Virtual Desktop.

See what customers are saying:

*"RAKE Virtual Desktop streamlined our entire operation and allowed us to quickly adjust to the COVID-19 crisis."*

– Kasam Hamza, Director of IT, Payday Payroll

Why Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1b+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
