

Starter pack – Conversational BI

Turn Your BI into a Conversational Experience in Weeks, Not Months.

The Starter Pack - Conversational BI – unleash the power of agentic AI on your data by combining your data in Microsoft Fabric with the agentic AI possibilities in Azure AI Foundry — giving you a fast, safe, and structured path to conversational BI.

Random Forest’s Starter Pack provides a guided, hands-on implementation that sets up the essential components required for conversational BI.

120 hrs

In just weeks, your organization will have a functioning conversational analytics environment — secure, governed, and aligned with your business goals.
