STRATEGY

CORE VALUES

OUR CORE VALUES ARE CENTRED AROUND OUR "FREEDOM TO GROW" MINDSET:

PEOPLE MAKING IMPACT

AHEAD OF THE CURVE

TRUSTED TO DELIVER

BETTER TOGETHER

RAPID CIRCLE

AZURE ESTATE ASSESSMENT

WHO IS THIS FOR?

- Organisations planning to migrate to Azure or expand their cloud footprint
- IT leaders seeking to benchmark and optimise their Azure environment
- Security and compliance teams aiming for robust, auditable controls
- Business stakeholders demanding transparency, cost control, and agility

RAPID CIRCLE

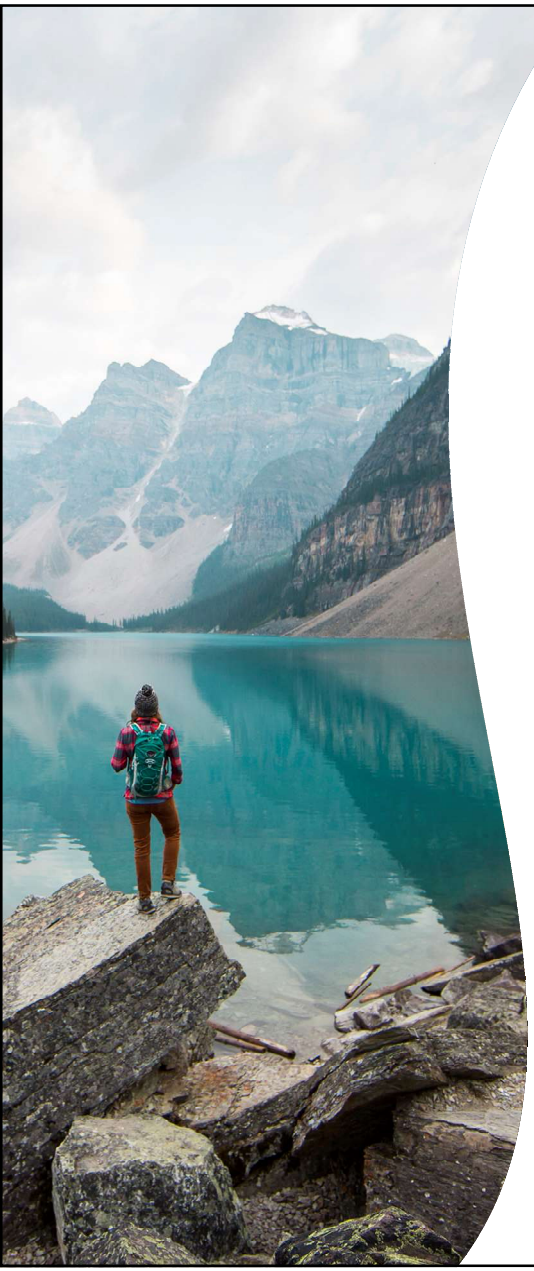
AZURE ESTATE ASSESSMENT

DISCOVER, ANALYSE, AND PLAN YOUR SECURE AZURE FUTURE

EXECUTIVE SUMMARY

The Azure Estate Assessment by Rapid Circle is designed to empower organisations to confidently transition workloads, infrastructure, and applications to a secure, well-governed Azure environment. Our approach combines deep technical expertise, proven frameworks, and a collaborative style to deliver actionable insights and a clear roadmap for your cloud journey. Whether you are just starting with Azure, scaling up, or seeking to optimise and secure your existing estate, this assessment provides the clarity, structure, and confidence you need to move forward.

RAPID CIRCLE



AZURE ESTATE ASSESSMENT

CLOUD ADOPTION IS NOT JUST A TECHNICAL MIGRATION

WHY AN ASSESSMENT?

Cloud adoption is not just a technical migration—it's a transformation of how your organisation operates, secures, and innovates. Many organisations face challenges such as:

- Legacy authentication and access models
- Inconsistent governance and compliance practices
- Manual, ad-hoc resource management
- Limited visibility into costs, security, and performance
- Gaps in backup, disaster recovery, and lifecycle management

The Azure Estate Assessment addresses these challenges head-on, providing a holistic, structured analysis of your current state ("AS-IS"), identifying risks and opportunities, and delivering a tailored action plan for a secure, scalable, and cost-effective Azure environment.

RAPID CIRCLE

AZURE ESTATE ASSESSMENT

OUR APPROACH

1.
DISCOVERY

- We start with a collaborative discovery phase, engaging stakeholders across IT, security, and business functions. Through workshops, interviews, and automated tooling, we build a detailed picture of your current Azure estate.

2.
ANALYSIS

- Our experts analyse your environment across all critical domains, benchmarking against best practices, compliance standards, and your business objectives. We identify risks, inefficiencies, and opportunities for improvement.

3.
RECOMMENDATIONS

- We deliver clear, prioritised recommendations, tailored to your organisation's needs and maturity. Each recommendation includes practical steps, ownership, and expected outcomes.

4.
ROADMAP

- You receive a structured, actionable roadmap for your Azure transformation, including quick wins, medium-term improvements, and long-term strategic initiatives.

RAPID CIRCLE

AZURE ESTATE ASSESSMENT

MIGRATE AND MODERNIZE, KEY OFFERINGS

We help organizations modernize their IT landscape by building a secure, scalable Azure foundation.

- **Azure Landing Zone (ALZ)** – enterprise-ready foundation for governance, networking, and security
- **Cloud Migration** – standardized approach for lift-and-shift and replatform projects
- **Infrastructure as Code Framework** – Terraform / Bicep templates and DevOps pipelines
- **Azure Arc & Hybrid Cloud Connect** – manage and govern on-prem, edge, and multi-cloud environments
- **Azure Local Platform (Edge & Sovereign)** – run Azure services close to operations (for industry, healthcare, data-sovereignty)
- **Security & Compliance Landing Zone** – identity, Defender, policy-as-code setup
