# PROACTIVELY MANAGE YOUR SECURITY

RAPID CIRCLE

Our Cloud Safeguard managed security service enables you to focus on business efficiencies and innovations whilst we keep your Microsoft tenancy secure.
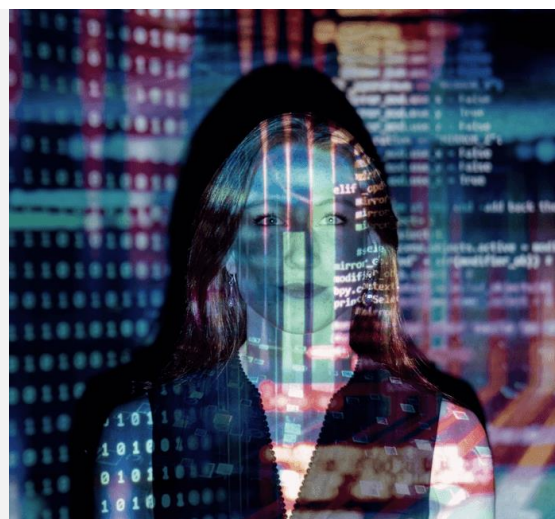

- ✓ Ongoing monitoring of your tenant by our security and operation experts.
- ✓ Visibility of your tenant achieved through the Microsoft Sentinel workspace.
- ✓ Optimise costs, whilst reducing risk.

- ✓ A modular approach to security which allow you to leverage our capability in a journey that suits your organisation's strengths and supports the areas that you need to supplement.

Reduce costs, risk and increase productivity and efficiency.

Using Cloud Safeguard, your organisation can optimise costs, reduce risk, increase productivity, efficiency, and competitiveness, and provide you with the scale when you need it.
