

# Cloud Migration for Microsoft Azure

Microsoft Partner  
Azure Expert MSP

*"RapidScale gave us access to experts at every stage of the cloud journey — from our first call all the way through migration and ongoing management."*

**Dave Peticolas**  
Sr. Director Software Engineering  
Myriad Women's Health

# RapidScale at-a-glance

RapidScale has helped hundreds of companies build and manage secure, compliant, high performance IT infrastructure. No other cloud partner combines the 24x7 engineering support, cloud security expertise, and automation tools you need to operate successfully in Azure.

CLOUD STRATEGY  
& MIGRATION

MANAGED

Microsoft Partner  
Azure Expert MSP  

**HITRUST**  
CSF Certified

**PCI**

**ISO 27001**

- ✓ Azure Expert MSP Partner
- ✓ HIPAA, HITRUST CSF, ISO 27001, SOC1, SOC2, PCI-DSS Certified
- ✓ 30+ years of experience on Windows workloads

# Cloud Migration

RapidScale has helped 350+ organizations accelerate migration, avoid common pitfalls, and meet security and compliance requirements.

*"RapidScale accelerated our move to the cloud dramatically... it's like having an expert guide through the jungle of IaaS products and services."*

**Jerry Hagedorn**  
Spring Venture Group

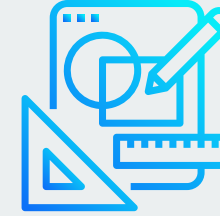

Step 1:

## Assess

Our Cloud Architects will analyze your existing architecture, understand your business needs, and perform a TCO Analysis.

- ✓ Understand your team's goals and technical limitations
- ✓ TCO Analysis
- ✓ Identify security and compliance goals
- ✓ Choose the right cloud platform
- ✓ Identify pilot applications for POCs

Step 2:

## Design & Build

We'll design and build a custom environment that meets your security, compliance, agility, and cost-efficiency requirements.

- ✓ Design secure, compliant reference architecture
- ✓ Develop and build a Minimum Viable Cloud
- ✓ Implement security and compliance controls
- ✓ Install 3rd party tools
- ✓ Integrate your CI/CD pipeline with our infrastructure automation

Step 3:

## Migrate

Get the keys to a production-ready cloud environment and go live on Azure.

- ✓ Test and refine your application
- ✓ Knowledge transfer and training
- ✓ Choose the right cloud-native or 3rd party tool for data migration
- ✓ For large migration projects, we will migrate applications in waves
- ✓ Executive presentation and hand-off

# Case Study

## StiboSystems

Stibo Systems provides Master Data Management to clients like Toyota, Office Depot, Best Buy, Sears, and Kellogg's. In this industry, the key competitive advantages are flexibility to tailor solutions to clients' needs and quick time-to-delivery. Stibo decided to transition to a cloud-based software delivery model to drive progress on both fronts.

Stibo turned to RapidScale' team of cloud experts to design, build, and migrate their software to Azure. As a result of working with RapidScale, they have **24x7 cloud support** and a standard, automated method of delivering new infrastructure that reduces client onboarding time by 80%.

### Challenges

- ✓ Single tenant SaaS application requires complete tenant isolation
- ✓ High security and governance requirements
- ✓ Desire to reduce client onboarding time to < 48 hours, requires new separate architecture for each client
- ✓ Limited internal cloud expertise

### Solution

- ✓ RapidScale Azure Managed Services

### Results

- ✓ **Reliable Infrastructure:** Stibo's environment is resilient by design, and self-healing automation ensures that critical resources maintain 100% uptime.
- ✓ **Expert Support:** RapidScale engineers are available 24x7x365 to respond to requests, add new resources, make long-term improvements, and more.
- ✓ **Enterprise-Grade Security:** RapidScale uses cloud-native and 3rd party services to ensure that Stibo's data and platform meet their high security and governance requirements.
- ✓ **Faster Client Onboarding:** As a SaaS company that must continually build out new environments for clients, Stibo relied on RapidScale' automation-driven approach to design infrastructure templates with security baselines built-in. This reduced customer onboarding time from one month to less than 48 hours.

*"RapidScale is our secret  
weapon for competing  
in the cloud age.  
We can now launch  
secure, compliant  
cloud environments or  
deploy to production  
in minutes!"*

**Tom Ezell**

VP of Cloud Operations, NextGate

## About RapidScale

Whether refreshing legacy IT systems or launching an app that will reach millions, RapidScale empowers our business with a complete set of private and public cloud solutions to simplify IT and unleash innovation.

From Infrastructure as a Service to AI, RapidScale brings you the best portfolio of managed services in the industry, backed by a deep bench of certified experts holding over 400 accreditations. RapidScale has helped hundreds of customers migrate to Azure while helping over 2000 customers drive the complexity and administration out of IT. RapidScale makes technology your biggest competitive advantage.
