

Azure Migration for Healthcare

HIPAA and HITRUST Compliant Infrastructure

- Migrate your applications to a HIPAA or HITRUST-compliant Azure environment
- Get expert guidance in Azure migration from a partner with experience on hundreds of healthcare cloud projects
- Reduce time-to-compliance and time-to-market on Azure

"RapidScale accelerated our move to the cloud dramatically. Their expertise is like having an expert guide through the jungle of IaaS products and services."

- Jerry Hagedorn, VP IT

Our Vision for Migration

Experienced staff and/or partner is the #1 predictor of success for cloud migration, according to Gartner.

Meet migration timelines and budgets

with our proven methodology supporting 600+ migrations

Design a strong cloud foundation

with the right security, performance, and scalability.

Automate infrastructure deployment

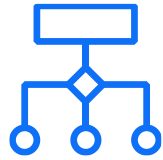

with our expert IaC, containerization, and image build practice.

90% of CTOs have experienced failed, delayed, or disrupted cloud migrations.

CLOUD SECURITY ALLIANCE

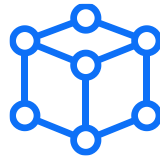

Your Project Team

Designated Professional Services Team

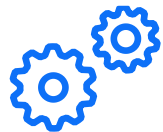

Cloud Engagement Manager

Cloud project managers who manage workflows, schedules, deadlines, and budget. **PMP, ITIL, and SCRUM certified.**

Cloud Solutions Architect

Senior technical & CTO-level architects averaging 15 years of IT experience lead design discussions.

Cloud Engineer

Seasoned engineers who build cloud systems, **certified in Kubernetes, Terraform, CISSP, RedHat, and more.**

Specialist Engineers (as required)

Specialized teams with expertise in Networking, Security, DBA, etc.

We bring the right highly-experienced people to each conversation, rather than "squads" of resources that burn hours.

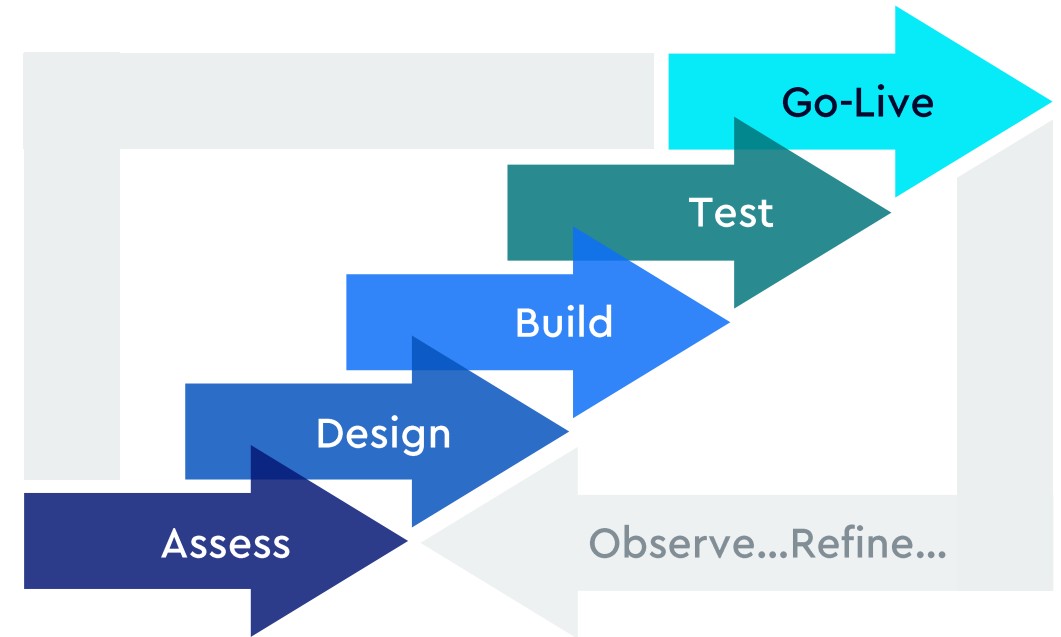

Migration Methodology

Process developed from 600+ successful cloud migrations

Approach:

- Methodology based on 15 years of experience and adaptable to your workflow style (Agile, ITIL, Waterfall)
- Measure twice, cut once: Prioritize thorough assessment & documentation of the design, before any resources are built
- Phases align with AWS Migration Acceleration Program
- Regular executive steering committee sessions
- Processes audited annually by Amazon & Microsoft

RapidScale demonstrated both a higher level of understanding of our needs and a more clearly defined process than the larger companies we vetted.
