  - Powell Teams

# What is Software Assurance planning services

# What is Software Assurance planning services

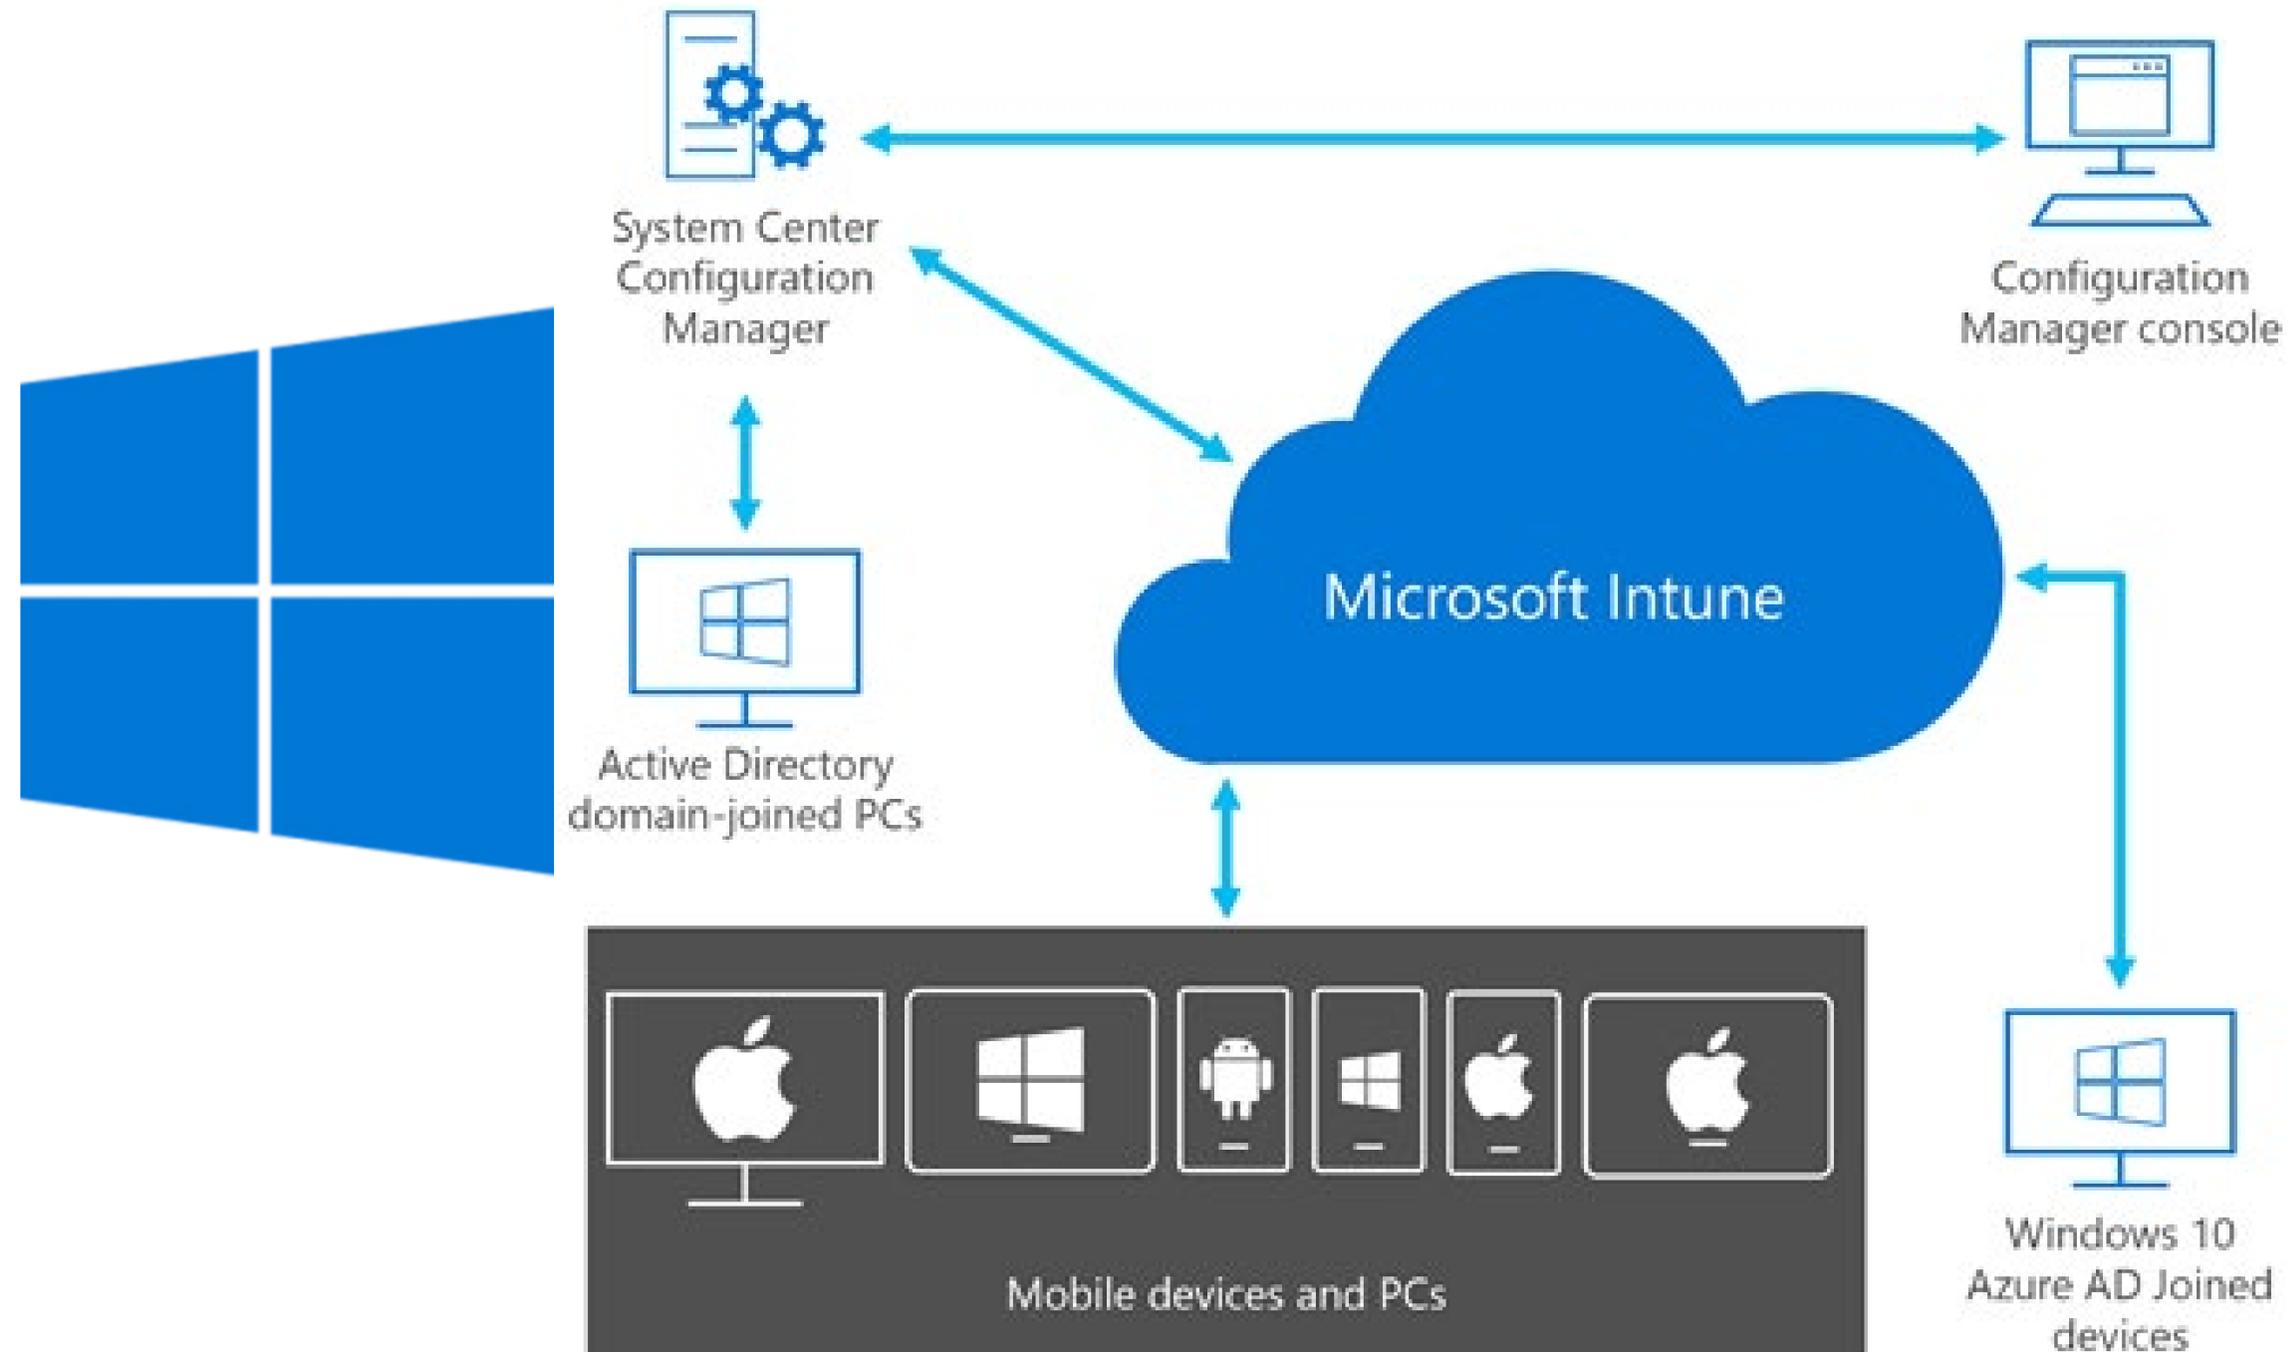

## Use Raqmeyat Planning Services to:

- Get help building a deployment upgrade, or migration plan.
- Remove ambiguity and concerns around deployments with on-site expertise.
- Learn how Microsoft products and services fit within your environment through in-depth technology planning sessions.
- Build a custom deployment plan based on an assessment of your IT environment, workforce needs, and business requirements.

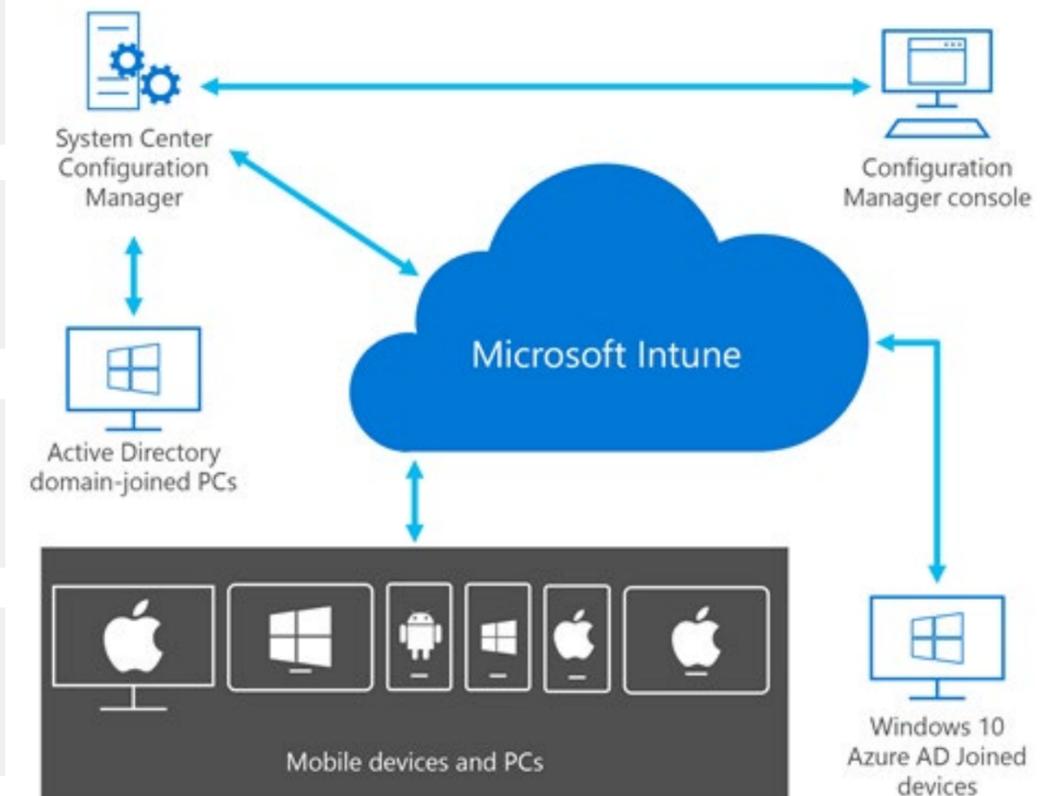

# Desktop Deployment Planning Services

# Desktop Deployment Planning Services

- Will help build a lab to explore features, service models.
- Capabilities, and help customers understand new security enhancements.
- Fast Track Deployment Planning for Microsoft 365
- Windows and Office Deployment Planning
- Mobile Productivity Deployment Planning
- Deployment Planning Microsoft Intune

# Mobile Productivity Deployment Planning

Microsoft 365

Mobile solutions are revolutionizing the way businesses operate, improving communication between staff, increasing efficiency and productivity, and helping businesses to solve daily challenges with scalable solutions.

# Mobile Productivity Deployment Planning

## What are the benefits of mobility solutions?

- Improved communication in the workplace
- Improved data accuracy
- Business processes optimization
- Cost and time savings

# Modern IT Enterprise Security Proof of Concept

The five-day Modern IT Enterprise Security Proof of Concept engagement is designed to help enhance the potential security benefits of Windows 10 Enterprise, Office 365 ProPlus, and EMS in your customer's environment, focusing on the Microsoft 365 E5 security features.

# Microsoft Azure Deployment Planning Services

Jumpstart your journey to the cloud with Public Cloud, Microsoft Azure Deployment Planning Services (AZDPS) structured consulting engagements with qualified Microsoft partners. Leverage Planning Services for custom assessments and prepare your business for the future.

# Microsoft Azure Deployment Planning Services

- Integrating Azure Storage
- Migrating VMs and Applications to Azure IaaS
- Modernizing Apps using App Service
- Modernizing Apps using Containers
- Implementing Event-driven Apps (Serverless)
- Implementing Application Development and Test Scenarios on Azure
- Implementing Azure Security and Management Services
- Enterprise Mobility + Security Identity and Access Management
- Enterprise Mobility + Security Identity Driven Security
- Enterprise Mobility + Security Information Protection
- Enterprise Mobility + Security Managed Mobile Productivity

# SharePoint Deployment Planning Services

This structured engagement is designed to showcase how SharePoint helps enterprises share, organize, discover, build, and manage information, content, applications, sites, skills, and expertise. It is designed to help organizations discover what's new in the platform, understand how to apply the capabilities, develop a logical architecture, and create a roadmap to deployment.

# Microsoft SharePoint

- Office 365 customization
- Office 365 migration
- Exchange managed services
- Cloud license and account management

# Microsoft Teams

## Nothing can stop a team

Invite everyone you work with to chat, meet, call, and collaborate all in one place, no matter where you are.

**Microsoft Teams** is a complete Group Collaboration Solution Addressing the unique needs and work style of each group to improve teamwork collaboration are the defining characteristics of modern organizations

# Microsoft Teams

## Chat from anywhere

Share your opinion, and your personality. Send gifs, stickers, and emojis in a group chat or in one-to-one messages.

## Meet from anywhere

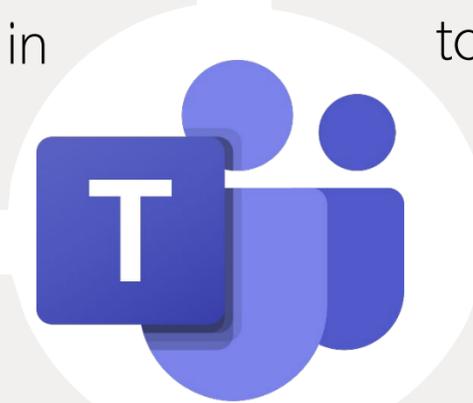

Instantly go from group chat to video conference with the touch of a button. Teams of 10 or 10,000 can meet in one place, no matter how many places they're in.

## Collaborate from anywhere

Never do that frantic, searching-for-files thing ever again. In Teams you can access, share, and edit Word docs, PowerPoint, and Excel files in real time.

## Call from anywhere

Never yell "who just joined?!" ever again. Use Teams calling, Phone System, Calling Plan, or Direct Routing to take the stress out of conference calls.

*Discover a new way to work together*

# POWELL TEAMS

## OPTIMIZE TEAMS COLLABORATION

### Organize the teams

Tags, favorites, recent activity, highlighted teams

### Simplify team creation steps

Provide ready-to-go & role-based templates to your users

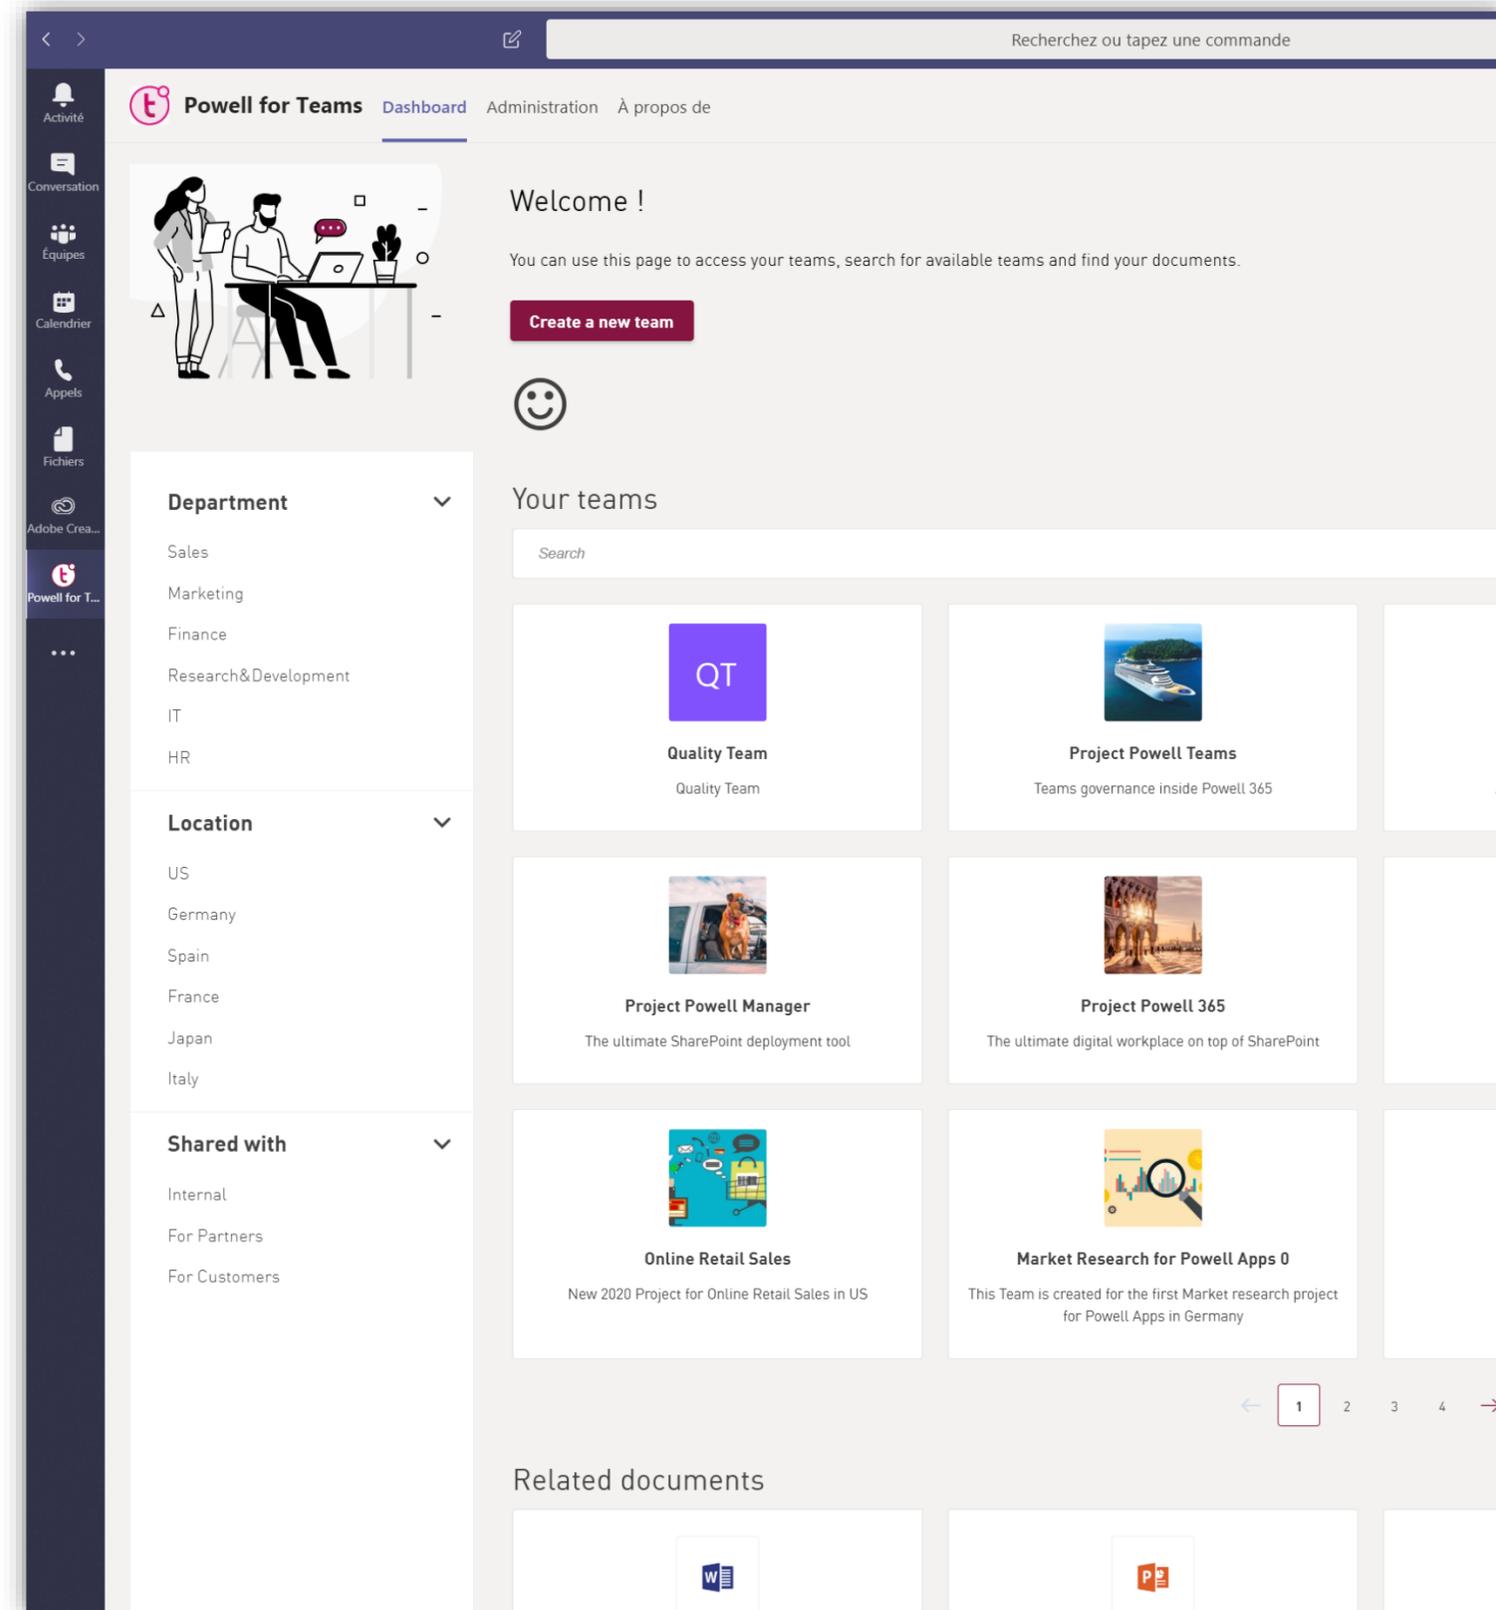

### Teams best practices

Define governance rules to help your users (naming convention, minimum and default owners / members, approbation....)

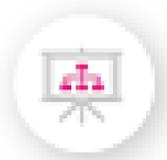

### Analytics

Follow the activity into Microsoft Teams

# 3 KEY CHALLENGES FOR SUCCESSFUL MICROSOFT TEAMS ADOPTION

## Governance

Approval Workflow, minimum of owners/members, archives, naming convention...

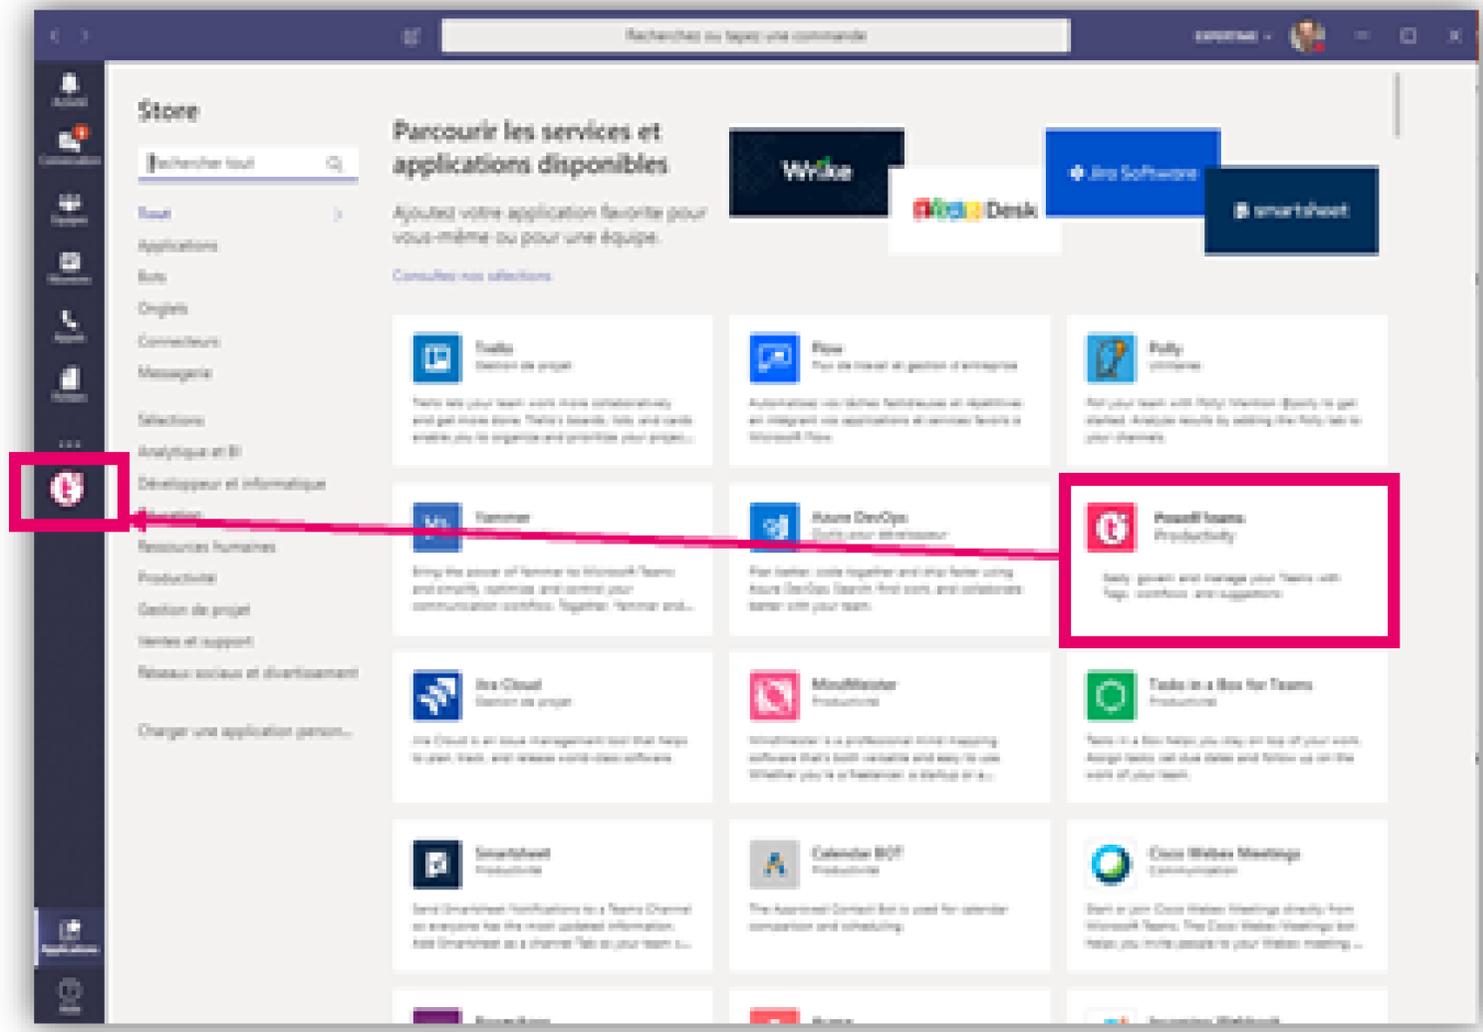

## User adoption

Team templates, simplifying team access with tags, favorites, highlighted Teams, training the users

## Transform Microsoft Teams into a Digital Workplace

Accessing the key Office 365 features (Outlook, Planner, Power BI, News, events, documents, tasks...). Include Intranet Communication

### Deployment steps :

- Add the app available in Teams store to the Microsoft Teams navigation for all your employees

You are ready to go!
