- Provide Documentation

The Microsoft 365 Transition Assessment and Architecture is designed for clients that need to conduct discovery and design of their environment in preparation for Microsoft 365 transition.

This package offers IT and business stakeholders a unique opportunity to rapidly discover and design their technological dependencies for migrating to Microsoft 365, leading them to consensus and a cohesive strategy for Microsoft 365 transition readiness. Our Subject Matter Expert will help you address top-of-mind dependencies and provide relevant documentation for successful planning of transition to Microsoft 365.

We'll work with you to:
- Discover and design general dependencies
- Discover and design your IAM environment
- Discover and design your messaging and message hygiene environment
- Address requirements for Collaboration
- Discover and Design Security and Governance
- Discover and Design Endpoint and Device management
- Design Communication and Training Plan

Value proposition

The Microsoft 365 Transition Assessment and Architect package is designed for clients who wish to conduct a thorough discovery and design of their environment before undertaking an actual migration to Microsoft 365. This service helps clients understand dependencies, envision the requirements for a Microsoft 365 transition, and address key migration considerations. The package includes a hands-on assessment of the current environment and the design of a future transition plan, enabling IT teams to strategize and plan effectively for a successful migration to Microsoft 365.

Why Ravanty?

At Ravanty, we excel in transforming businesses through Microsoft Cloud Services, leveraging our deep expertise and robust implementation frameworks. Our commitment to client success drives us to deliver tailored solutions that enhance productivity, security, and efficiency. Over a decade of experience in guiding clients through their cloud journey. From consulting and deployment to adoption and change management, we cover all aspects. We integrate advanced security measures to protect your digital workspace. Our solutions are designed to meet your unique business needs and objectives.
