Copilot Pak365
Microsoft Purview &
Copilot Implementation

Ravanty

Highlights

Assess current security, governance, and compliance requirements. Evaluate your existing data landscape and compliance needs

Identify sensitive data and regulatory obligations and apply policies accordingly. Ensure data protection and compliance to support Copilot rollout

Design Copilot rollout and conduct a pilot in your production environment for selected group of users

Empower your organization for proper Copilot adoption

Empower your enterprise Data protection and Compliance requirements across your Microsoft 365 data estate and confidently rollout Microsoft 365 Copilot.

Address your **Security and Compliance** requirements holistically, prioritize critical path items and experience the power of **Microsoft Purview**. Implement **Microsoft 365 Copilot** across your production pilot user group and apply **AI Excellence** mechanisms for smooth adoption of Copilot, ethical practices, and AI strategies that are aligned with your business objectives.

We'll work with you to:

- Conduct a **holistic analysis** of your Microsoft 365 **Data**
- Help you protect your Data to **better manage your risk**
- Implement **Purview Information Protection and Governance** requirements
- Address **Data Security Posture Management** and **Oversharing**
- Empower your organization for proper **Copilot Adoption and Rollout**

Know Your Data   **Protect Your Data**   **Prevent Data Loss**   **Govern Your Data**   **Adopt Copilot**

Value proposition

Unlock the full potential of Microsoft Copilot while ensuring robust security and compliance with our Purview Information Protection Readiness and Implementation. We help you strategically plan, prepare, and implement data security and compliance measures alongside your Copilot rollout. With a strong focus on change management and user adoption, we ensure your team maximizes Copilot's capabilities without compromising compliance or security.

What our clients say

"Ravanty was an absolute pleasure to work with! Their expertise in Microsoft technologies, especially Copilot and Entra ID, was evident from the start. They seamlessly integrated security measures and governance protocols, ensuring our data was always protected and compliant. The project management team was top-notch, keeping everything on track. What truly stood out was their dedication to adoption; they provided comprehensive training and support, making sure our team was fully comfortable with the new systems. Ravanty consistently went above and beyond, proving to be a reliable partner we could count on. Highly recommend Ravanty for any project!"
