Challenges to Address

Flexible work arrangements and widespread support for **BYOD** programs have led to **increased endpoint security risks** across industries.

Organization leaders feel **pressure** to increase productivity amid **economic uncertainty** however, **IT admins are already overwhelmed** by managing flexible work.

Inflow of data, emails, meetings, and notifications has **outpaced humans' ability to process** it all. Employees report that they **don't have enough time** to do their job.

Who should attend

- Chief Information Security Officer (CISO)
- Chief Information Officer (CIO)
- Chief Security Officer (CSO)
- Endpoint & Device Management owners/decision makers
- Application business owners
- IT Security
- IT Operations
