[ENTRA ID HEALTH CHECK]

Our process

Through a direct consultation and comprehensive audit of your Entra ID tenant, we develop a deep understanding of your environment and facilitate a clear process for you to modernize your cloud identity infrastructure. Our Entra ID Health Check process includes:

STEP 1: 1:1 CONSULTATION STEP 2: RUN HEALTH CHECK TOOLS AND EXPERTISE

STEP 3: ASSESS YOUR ENTRA ID HEALTH STEP 4:
DISCUSS
REPORT AND
RECOMMENDATIONS

STEP 5:
IMPLEMENT
RECOMMENDATIONS*

A Ravenswood expert will meet with you to discuss your Entra ID environment, understand your specific needs, and answer your questions.

Ravenswood will utilize our tools and expertise to evaluate your Entra ID environment from all angles. This includes security, configuration, and operational risks.

Ravenswood analyzes the results and creates a comprehensive report and presentation that includes detailed findings and actionable recommendations to improve Entra ID health.

Ravenswood
discusses the report's
findings with you, gives
expert remediation
recommendations, and
answers any of your
outstanding questions.

If desired, Ravenswood can implement our actionable guidance to optimize your Entra ID environment.

*This step is not included in the Entra ID Health Check process.
