

Azure Cloud Optimization Assessment - 6 Weeks

Azure Marketplace

August, 2022

Are you tired of Consulting firms building their reputation and leaving you with a system that doesn't meet your needs? Is your system failing to scale, failing too frequently, or failing to pass the regulatory sniff test?

Ravl is different

Ravl is an Engineering-first company – We only Advise on what we know and can Build

Ravl's recommendations are based on practical, hands on experience and expertise

Ravl delivers based on impact – Our work is fixed price and fixed outcomes

Ravl won't leave a deck that gathers dust - We roll-up our sleeves to Build. Better. Today.

Are you getting the most out of Azure?

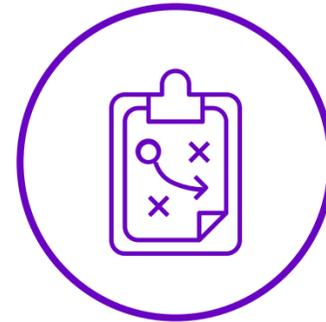

Obtain a transparent view of your current Azure posture and a realistic pathway to getting more out of Azure through the Ravi Waypoint Cloud Assessment.

Phase 1 (Analyze)

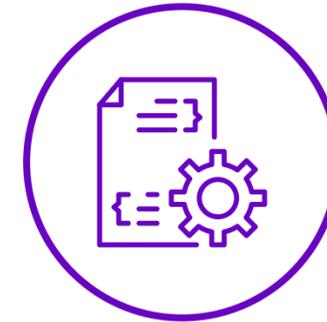

We **identify** and **analyze** your current **Security & Compliance, Cost, Capacity,** and Architecture for your **system** of choice

Phase 2 (Refine)

We generate a detailed assessment of your **current state** capturing potential **improvements** based on our Cloud Engineering & Architecture experience and expertise

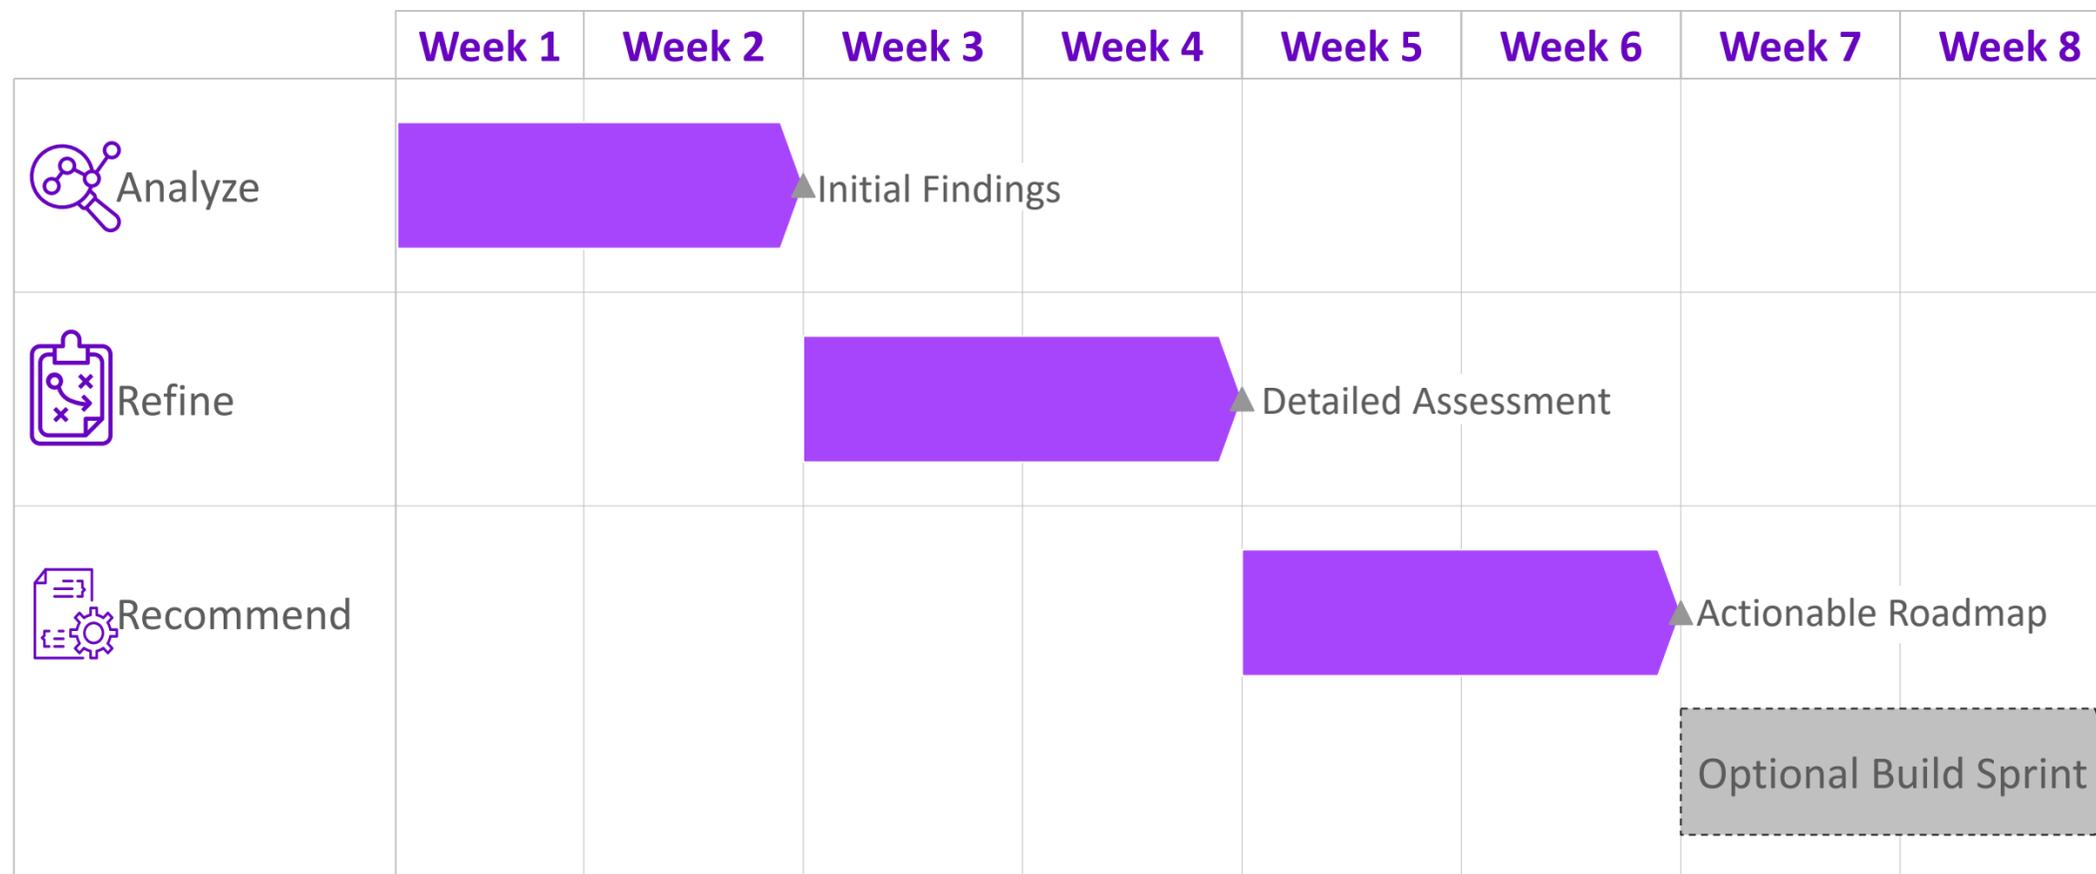

Phase 3 (Recommend)

We anchor our findings on your **first waypoint** along your journey creating an **actionable roadmap** to achieve your cloud transformation goals.

We go from **insight to action in 6 weeks**, providing a robust system to support your priorities

Ravl takes you from insight to action in 6-8 weeks, providing you with robust and scalable system(s) to support your priorities:

The Azure assessment & optimization can be completed for \$125-\$150K

What do you get?

- Our Initial findings and no-regrets actions.
- A detailed **current state assessment** of your system
- An **actionable roadmap** with targeted recommendations aligned to your priorities

...resulting in a state where you can achieve your goals jointly with a partner or with your own team maximizing the ongoing value to your organization.
