## Services

**DevOps Consulting**

**Cloud Consulting**

**Professional Outsourcing**

**Managed Squads**

**Software Projects**

## The largest companies in Brazil trust our solutions

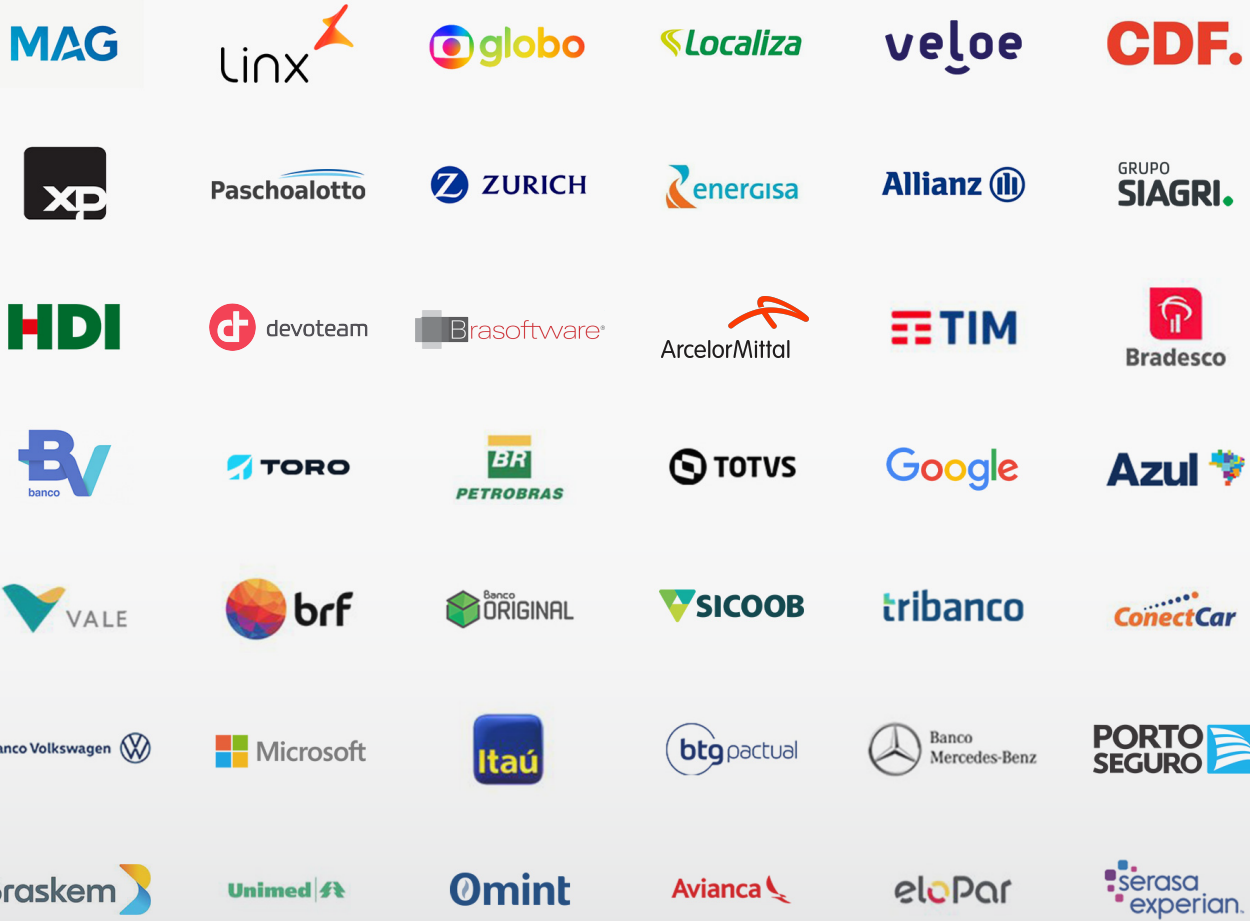

**10 year**  
history

**+100**  
clients

**+500k**  
consulting hours

**+500**  
allocated professionals

## Who we are

### Very different from the others

We are not like the big consulting companies that are more concerned with putting their plan into action at all costs and treat your company as one more client in their portfolio. We want to add to what is essential, respecting your culture, structure, and governance.

### Far beyond a Bodyshop

Here, we go the extra mile. We don't just serve as a recruitment and selection company. We help you build adjusted and resilient squads and follow up with all the allocated professionals closely.

## Our Motto: Technology is not enough

In a market of constant chaos, we believe the only possible way to build an IT area with high performance is when we look beyond technology.

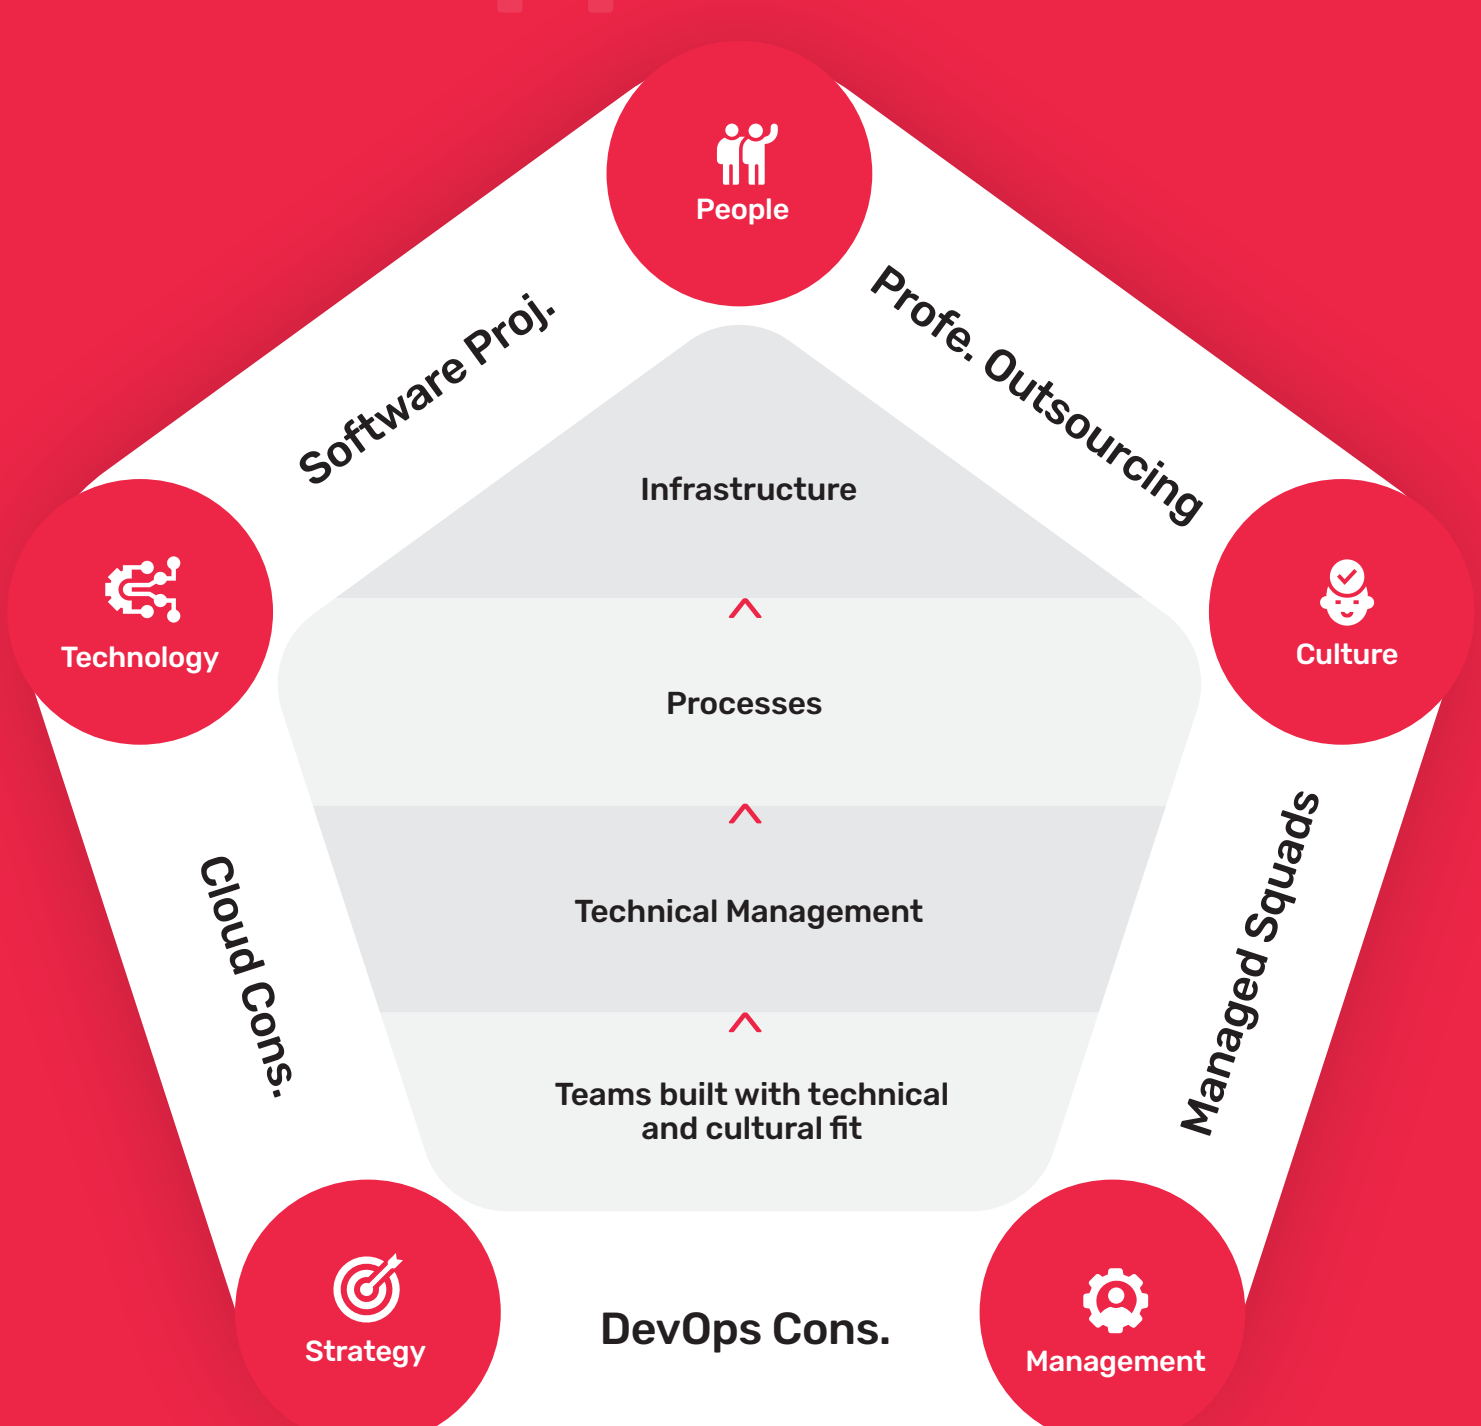

## How do we operate?

We act as an extension of your technology team and serve as the right hand of Managers so that they can be less reactive to workloads and manage the 5 fundamental pillars of high-performance IT.

## Our Approach

## Some of our most successful cases

**TOTVS**  
We built the largest installation of the Microsoft Azure DevOps platform (TFS at the time) outside of the United States and facilitated the transition for over 3,000 developers.

**HDI Seguros**  
With DevOps we migrated all the company's environments to the Google Cloud Platform

**Veloe**  
We built and are maintaining the entire CI/CD treadmill of the company, with pipelines for Microservices architectures and the consolidation of their repositories in the AWS Cloud.

**MAG Seguros**  
We migrated a legacy database that is over 100 years old, as well as maintaining a full DevOps program.

**LINX Pagamentos**  
We migrated a legacy database that is over 100 years old, as well as maintaining a full DevOps program.

**Rede Globo**  
We built a resilient technology team, with more than 50 professionals, for a program of total migration of the media collection of the largest communication group in Brazil and one of the largest in the world.

**Localiza**  
Catalizamos, com DevOps, o programa de migração de todos os
