# Microsoft Dynamics 365 Finance and Operations

# Security & Licensing true up

# Prepare for 2025 Enforcement

## Why This Matters:

Starting November 1, 2025, Microsoft will strictly enforce licensing compliance across Dynamics 365 Finance and Operations. Unlicensed users will be blocked from accessing production environments, and organizations may face unexpected cost impacts or operational disruptions if license entitlements are not aligned with user requirements.

*Now is the time to assess your risk exposure and optimize your licensing to avoid disruptions.*

## Our Complimentary Review and Assessment:

We offer a **free, no-obligation** review and assessment of your current Dynamics 365 Finance and Operations licensing and security configuration to help you prepare for Microsoft's upcoming enforcement. This includes:

- Reviewing current license usage across users and roles

- Evaluating current vs. required license types based on activity and access

- Identifying compliance gaps and misaligned roles

- Quantifying the potential cost impact post-enforcement

- Delivering a personalized roadmap for license and role optimization

- Below is a snapshot of the review and assessment report:

| Types of Licenses & Pricing (as of 2024): | | New from July 2025 | | | Existing/proposed | | Existing/proposed | |
|---|---|---|---|---|---|---|---|---|
| **License Type** | **Functionality** | **List Price (USD/user/month)** | **Discount %** | **Effective price (USD/user/month)** | **User role count** | **Current/estimated amount Monthly** | **Nov12025 onwards user type count** | **Current/estimated amount Monthly** |
| Full User | Full functionality | $210–$240 | 10 | 189 | 39 | $7,371 | 70 | $13,230 |
| Team Member | Limited functionality | $8 | 10 | 7.2 | 108 | $778 | 76 | $547 |
| Operations Activity | Transactional tasks | $50 | 10 | 45 | 19 | $855 | 20 | $900 |
| Operations Device | Shared device access | $75 | 10 | 67.5 | 4 | $270 | 4 | $270 |
| | | | | | 170 | $9,274 | 170 | $14,947 |
| **Ways to optimize price:** | | | | | | | extra monthly cost | |
| 1) Get EA when license count is more | | | | | **True Up Change** | 61% | $5,674 | |
| 2) Get multi year commitment with Microsoft | | | | | | | | |

Starting Nov 2025, Microsoft is no more allowing trust based licensing which means every named user must be assigned role upfront which is counted towards licenses

## Premium Support (Post-Assessment):

If you choose to engage us further, our premium support includes:

- Redesign existing security artifacts (e.g. roles/duties/privileges..) to **maintain existing license tier requirements.**

## Let's Connect

Don't wait for licensing penalties or user disruptions.

Book your free assessment today and take control of your Dynamics 365 licensing before the deadline hits. Please connect with us at D365RDLicensetrueup@realdynamics.com.
