

What We Offer

Managing academic credentials doesn't have to be complicated. EduVault provides a comprehensive, secure platform for digital credential management, giving universities, employers, and individuals the tools they need to store, verify, and access critical records with ease.

Whether you're an institution looking to safeguard your reputation or a student aiming to stand out, EduVault delivers unparalleled security, efficiency, and ease of use.

EduVault is a secure platform designed for Education Credential Verification

Secure, Verify, and Manage Academic Credentials Efficiently.

Seamlessly verify and secure academic credentials for institutions, employers, and individuals - trusted, efficient, and built for the future.

About EduVault

EduVault is a cutting-edge solution developed by Fusion the Apps People and is part of the SIS Global Group of brands. EduVault is trusted by leading educational institutions, employers, and professional organizations worldwide and is backed by Microsoft Entra Verified ID for maximum security and data protection.

EduVault's secure platform offers:

- **Centralized Repository:** Consolidates educational records into one place with instant, real-time access for institutions, employers, and individuals.
- **Trusted And Secure Verification:** Top-level encryption powered by Microsoft Entra Verified ID that protects credentials from fraud and tampering.
- **Microsoft Entra Verified ID:** Ensures maximum security and data protection.
- **User-friendly Interface:** Manage and share credentials easily.
- **Automated Verification:** Real-time verification of academic credentials that accelerates hiring and enrollment decisions.
- **Integration With Existing Systems:** Educational institutions upload and securely store credentials in EduVault's platform.
- **For universities, academic institutions & colleges:** Enhance efficiency, reduce errors, and maintain credibility in the academic world.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
