How to Backup Comcast Emails in Easy Steps?

Step 1: **Download** and **run** the software on your P.C.

Step 2: Enter **login details** into the software panel.

The screenshot shows the Comcast Email Backup Wizard v6.0 (Trial) software interface. The window title is "Comcast Email Backup Wizard v6.0 (Trial)". The menu bar includes "File" and "Help". The toolbar contains icons for "Email Source", "Backup", "Buy Now", and "Activate". The main window has a blue sidebar on the left with an envelope icon and a red arrow pointing down. The main content area has a tabbed interface with "Select Email Source", "Backup", "Filter Options", and "About". The "Select Email Source" tab is active, showing a form titled "Please Enter your Email Account Credentials". The form has two input fields: "Email Address" (containing a blurred email address) and "Password" (containing a series of dots). Below the form are two checkboxes: "Use Batch Mode" (with the description "Use this for batch multiple Email Accounts backup") and "Use Proxy" (with the description "Connecting Email Source using Proxy Server"). A green text message reads: "If you are facing issues during login to your account. Please visit below tutorial to know, what exact settings are required to be enabled." Below this is a link: "[Visit Settings & Troubleshooting Tutorial]". At the bottom, it says "Connecting. Please wait..." and there are two buttons: "Reset" and "Login".
