**RecoveryTools For Hotmail Backup Wizard**

The Robust Solution to Download Bulk Hotmail Emails to Hard Drive

The RecoveryTools Hotmail Email Backup Wizard is an ideal solution to effortlessly save Hotmail emails on a local disk in the desired file format such as PDF, DOC, HTML, etc. It offers batch mode which allows the users to backup various Outlook.live.com or OWA email accounts in one go. One of its unique and appreciated features is that it also backup all the Hotmail email attachments whether normally attached or embedded in it. In addition to that, this Hotmail backup software ensures that all the minor to major attributes such as header and metadata remain intact even after the backup. Plus, for better management of the saved Hotmail items, the utility has multiple file-naming options. Also, one of the biggest reasons to choose the RecoveryTools Hotmail backup tool over others is due to its ability to save OWA emails to Yahoo Mail, Rediffmail, Gmail, Outlook, G Suite, Office 365, and many more. Hence, download this Hotmail backup tool and witness its contribution to your productivity.

**Visit the official page: [RecoveryTools for Hotmail Backup Software](#)**

**Step 1: Download and run** the above-mentioned tool on your system and share the Hotmail credentials.

**Step 2:** Now, **select the Hotmail files and folders** that you want to backup.

Step 3: Next, **choose the saving option** to backup Hotmail emails.

Step 4: Further, **apply advanced filters** to make the output more specific.

Step 5: Finally, **click on the backup button** to start the Hotmail email downloading process.

Once the process to backup Hotmail emails is completed, the tool pops up a dialogue box sharing that the conversion is done successfully and the file has been saved to the selected destination.

Conclusion

Hence, this is a great Hotmail email backup tool that saves Hotmail emails, calendars, contacts, and other items seamlessly in the desired file format or email client. Moreover, the best thing about this software is that it works in all Windows operating system editions and also offers a demo version to let the users explore all the efficient features of this tool.
