RecoveryTools Rackspace Backup Wizard

The Rackspace Backup Wizard is the best tool to backup Rackspace emails with attachments

Many Rackspace webmail users struggle to backup their Rackspace mailboxes locally or to other platforms and file formats. We have come up with an advanced software for users to smoothly backup all the Rackspace email data to their desired format and platform. The Rackspace Backup Wizard is capable of downloading multiple Rackspace accounts in a single process and also offers an option to selectively backup their email files as per user's specific criteria. The tool provides 25+ saving options including PST, MSG, EML, MBOX, PDF and webmail accounts such as Gmail, Yahoo, Office 365 etc.

Once you have followed the above steps you will be easily able to backup your Rackspace webmail data to your desired format. The tool also provides an option to directly transfer emails from one Rackspace account to another account. Users can also extract email addresses and attachments separately using the backup tool.

Conclusion

The Rackspace Backup Wizard is especially developed for users to backup their email data along with the attachments easily and seamlessly. The tool offers advance email filters to export only specific emails based on user's criteria. The tool also provides multiple file naming option so users can sort and organize large number of email files as per their convenience. The tool takes user's data privacy as a priority and ensures complete safety and security. The software also guarantees to preserve the data integrity and folder hierarchy as original.
