

Red Ink Text Templates

Do you need to add and edit text on Microsoft Dynamics 365 Business Central sales documents, customers, vendors, and many more locations? Are you struggling with email bodies?

Introduction

Features and benefits of using this extension:

- Create letters, contracts, additional text for items, sales documents, and much more.
- An easy-to-use text editor that offers changing fonts and colours, text alignment, tables, images and more.
- Templates for sales text, email bodies, letters, contracts, and anything else.
- Your text will follow your sales process, from customer to invoice.
- Seamless integration with existing Reports ForNAV reports.
- Seamless integration with the Business Central email editor.
- Use a template directly or create your own text.
- Use data from any Business Central table in your templates.

Try it today and impress your clients with an easy and intuitive way of creating and managing text.

*This extension works best in combination with Reports ForNAV. You need a separate license to use ForNAV.
