

# Azure Migration Service

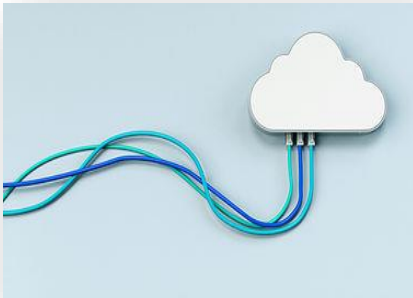

Delivering Digital Transformation

# Azure Migration

RedCortex can help you transform your organisation and enable the use of cloud or hybrid cloud technologies. Having specific public sector experience, we can work with organisations to develop a benefits-led approach to cloud migration, implement new services and develop internal ICT capabilities resulting in lower costs and greater resilience.

## Features

- Flexible delivery models, staff can be on-site or virtual
- Collaborative working approach, working alongside permanent staff
- Complex cloud transformation expert resources and techniques
- Transformation and coaching of delivery approach across Waterfall to Agile
- Upskilling and knowledge transfer to permanent staff members
- Ability to deploy multi-skilled resources on-site rapidly
- Different governance models available to suit your organisation need
- Previous experience of transforming Public Sector Bodies
- Develop a 3-5 year ICT Strategy to meet your organisation's business needs
- Transformation Benefit tracking throughout process

## Benefits

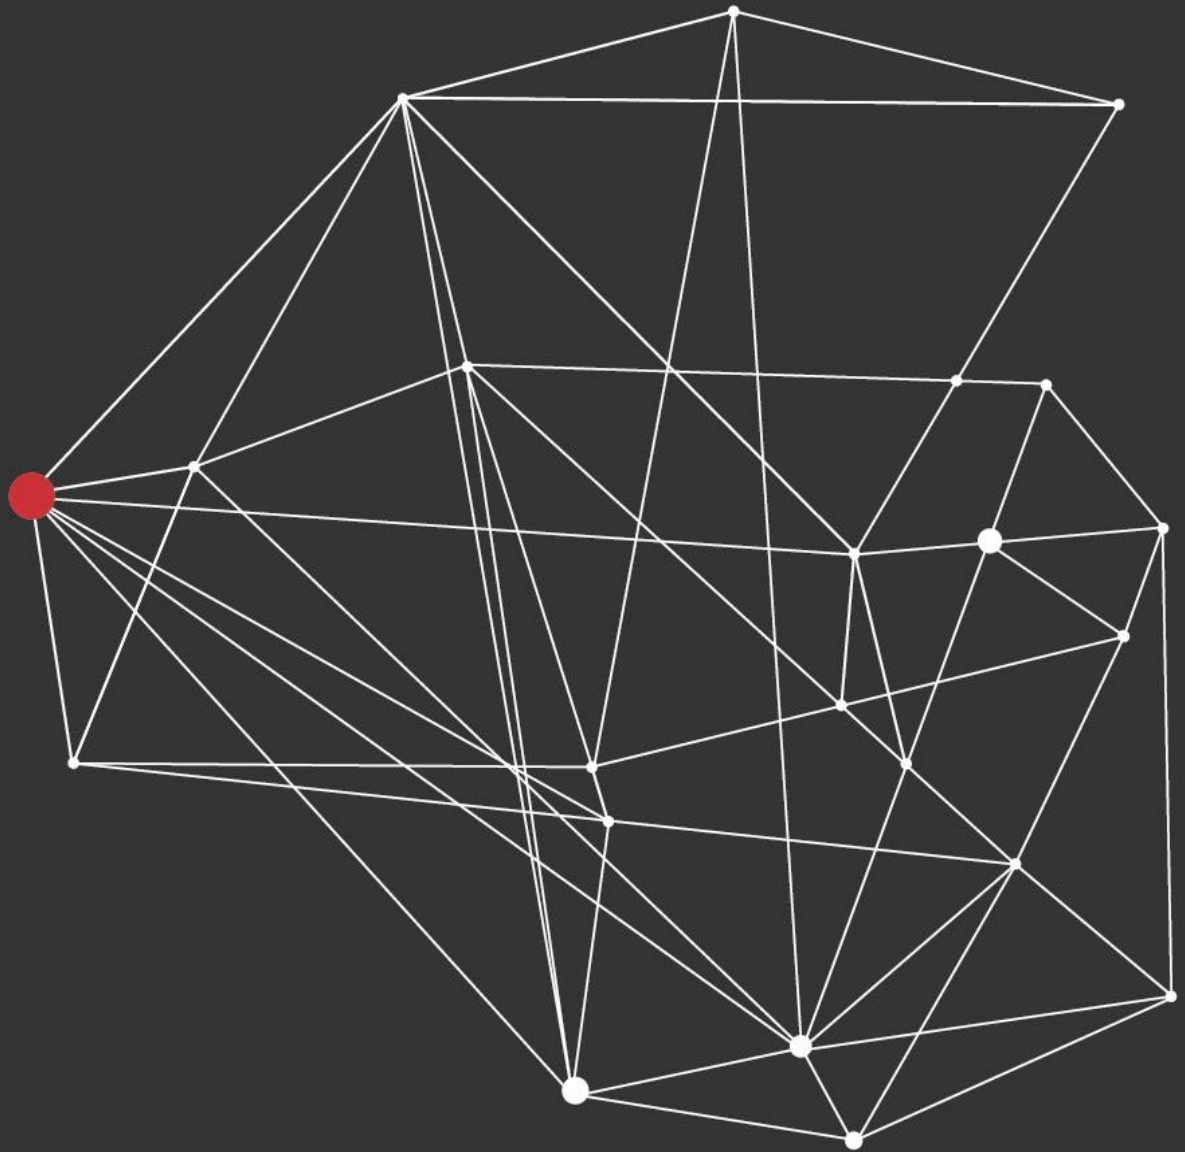

- Cost reduction and reduced complexity
- Allowing organisations to take control of their own ICT
- Reduced delivery timeframes due to flexibility of cloud
- Experience of transforming UK Public Sector bodies
- Experience of migrating away from large vendors and in-housing
- Experience of migrating legacy apps to latest cloud platforms
- Improved Skills, Capabilities and Culture to deliver business change
- Improved Efficiency and Responsiveness to changes; services flexibility and quality
- Improved end-to-end service quality and business continuity
- Improved security and reduced threat of cyber attack
