

AV/OR CRM

A revolutionary CRM built entirely on artificial intelligence. Unlike systems that offer AI only as an add-on, AI here is the core concept—supported by hundreds of autonomous AI agents from the AVIOR.WORLD ecosystem.

AV/OR TIMESLOTS

Supported by autonomous AI agents, AVIOR TimeSlots analyzes your appointments and tasks. It identifies synergies and suggests combining meetings with tasks for focused and efficient work.

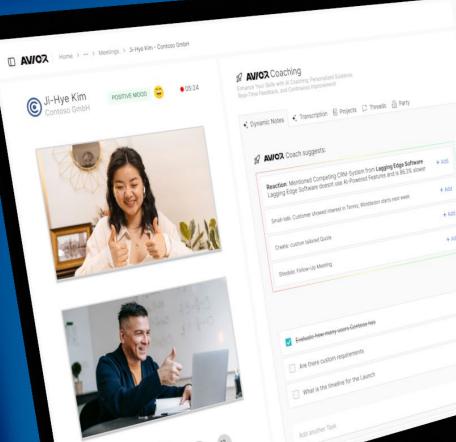

AV/07 ACTION HUB

Autonomous AI agents analyze your omnichannel communications, extract relevant action items, and update task statuses in real time. This ensures you always know when to take action.

JASK AVIOR

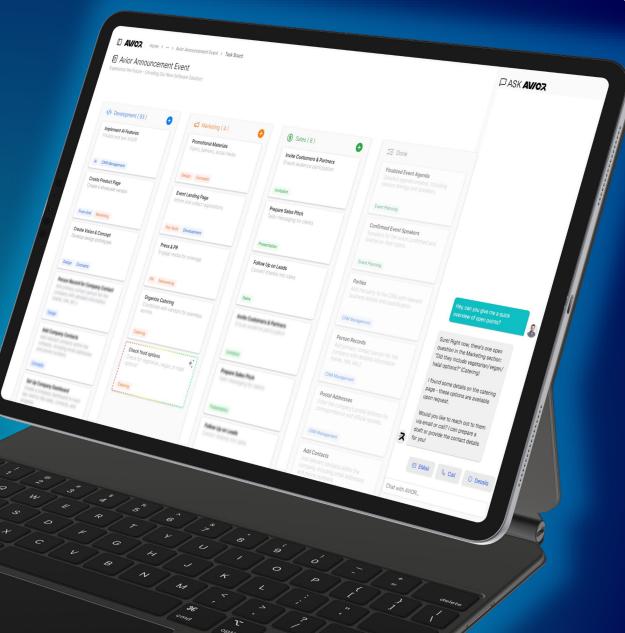

AV/OR COACH

With autonomous AI agents, the AVIOR Coach revolutionizes your customer communication – whether via video, telephone, or email. It analyzes concerns and sentiments, provides optimization suggestions, and initiates immediately actionable measures – for significantly enhanced interactions.

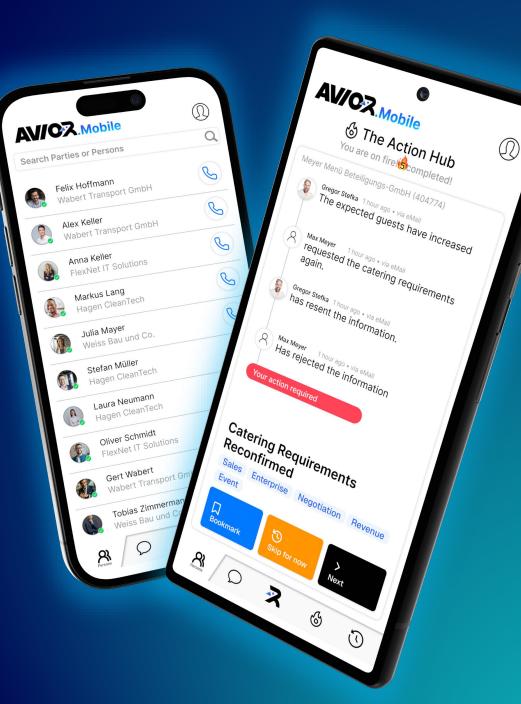

AV/OR ASSISTANT

No matter where you are within the application, the AVIOR Assistant is always by your side. As your personal digital assistant, it provides immediate support, executes requested actions, and delivers precise information to enhance your efficiency.

AV/OR MOBILE

As an extension of AVIOR.CRM, AVIOR Mobile provides you with rapid and efficient access to all necessary information while on the go. This ensures you remain fully operational anytime, anywhere – the perfect duo for seamless, intelligent business solutions.

AV/OR CAR

With AVIOR Car, long business trips are transformed into productive time. A specially developed AI Voice Agent enables you to retrieve essential information from AVIOR.CRM and complete tasks directly in your vehicle – you've never utilized your time on the road more efficiently.
