

Regain for IMAP to Google Workspace Migration Working Guideline

Migrating from traditional email servers or webmail platforms to **Google Workspace** offers enhanced accessibility, storage, and collaboration tools. However, manual migration is time-consuming and risky. [Regain IMAP to Google Workspace Migration Tool](#) simplifies the process by enabling direct mailbox transfer from any IMAP-compatible email account—like Yahoo, Hostinger, cPanel Mail, or GoDaddy—to Google Workspace.

This is ideal for businesses upgrading their infrastructure or consolidating multiple mailboxes into a centralized Gmail environment.

Key Features:

- **Direct IMAP to Gmail Migration** – Migrate emails directly from any IMAP server to Google Workspace.
 - **Multiple Account Migration** – Supports batch migration of multiple mailboxes at once.
 - **Folder Hierarchy Preservation** – Keeps the original folder structure and email metadata intact.
 - **Selective Migration** – Choose specific folders or date ranges to migrate.
 - **Advanced Filtering Options** – Migrate only what you need using subject, date, or sender filters.
 - **Secure Login** – Uses OAuth 2.0 for secure Gmail authentication.
 - **No Downtime** – Ensures continuity with zero impact on daily operations.
-

How It Works:

1. **Launch the Tool** – Open the Regain [IMAP to Google Workspace software](#).
 2. **Enter Source IMAP Details** – Input credentials for the source email account.
 3. **Authenticate Google Workspace** – Sign in securely with OAuth to connect your Gmail account.
 4. **Select Mailboxes/Folders** – Choose what to migrate.
 5. **Start Migration** – Begin the secure and error-free transfer of emails to Google Workspace.
-

Supported IMAP Platforms:

- Yahoo Mail

- GoDaddy Email
 - cPanel Hosting Mail
 - Hostinger Email
 - AOL
 - Roundcube
 - Zimbra
 - Exchange On-Premises (IMAP access)
 - Any IMAP-enabled custom or third-party email servers
-

Conclusion:

Regain IMAP to Google Workspace Migration Tool is a reliable and user-friendly solution for transferring IMAP mailboxes to Gmail/Google Workspace. With support for multiple accounts, secure authentication, and detailed filters, it ensures that your migration is not just successful—but efficient and stress-free.
