

Future Proof Analytics Platform

- "Boost your innovations today - and your visions for tomorrow"

AZURE ANALYTICAL PLATFORM

We offer a secure, scalable and future-proof analytics platform based on Microsoft Azure that easily can and import data from multiple sources such as on-premise data, streaming data and other cloud applications and enable reports and self-service BI applications.

WHAT WE OFFER

Future-proof

Continuous innovation from Microsoft — supports your development today, and your product visions for tomorrow.

In an everchanging world make sure to stay on top of your competitors by investing in a future proof solution.

95% of Fortune 500 companies trust their business on Azure.

Scalable

Think Big – start Small!

Our analytics platform is elastic and grows together with your business and data requirements.

Add new data sources as your analytic need is increased and make sure to only pay for the amount of performance that you need, when you need it.

Trusted & Secure

The robust security structure in the platform, combined with our experience guarantees a platform tailored to your needs.

We dedicate specific attention to build a solid architecture in terms of security and data privacy.

Time-to-Market

Our analytics platform concept enables a very short Time-to-Market and our expert team can within weeks deploy a full-scale solution.

As business needs change it's easy to add additional analytical services provided in the Microsoft Azure platform such as Cognitive Services, Bot Service, Machine Learning, etc.

WHAT OUR CUSTOMERS ARE SAYING

I am very pleased to work with Reinsight as a partner in this project. They have the technical capacity to deliver complex solutions at the same time as they understand financial models and terms".

– **Gard Vammervold Eriksen**

CFO Söderberg & Partners Norway

The BI Company

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

Be future-ready

Continuous innovation from Microsoft supports your development today and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise-grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

Build on your terms

You have choices. With our commitment to open source and support for all languages and frameworks, you can build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support for Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90 percent of enterprises globally.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With its \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
