Remote Monitoring and Management

Class Chrome Bundle

Our classroom monitoring features are designed to put control back in the teachers' hands.
Ensure students are on-task by minimising distractions in the classroom.
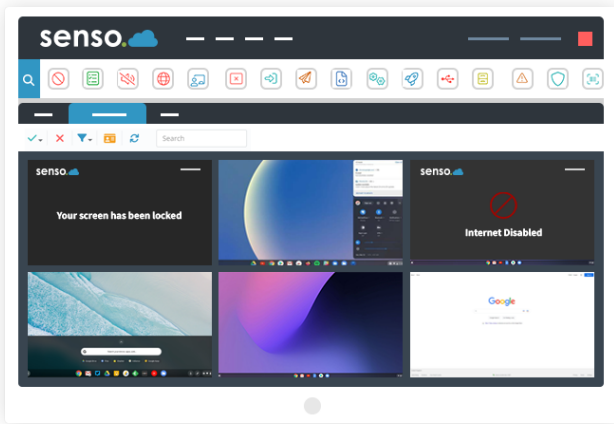

CLASS CHROME BUNDLE BENEFITS

Monitor multiple Chrome devices simultaneously, keep students focussed and engaged
with our powerful teacher tools.

✔ **Classroom Monitoring Solution.**

Monitor the screens of Chrome devices in the classroom.

✔ **Completely Web-Based.**

Teach smarter with our web-based management console.

✔ **Built for Scalability.**

Senso is able to cope with any number of Chrome devices.

✔ **Manage Substitute Teachers.**

Share your groups with substitute teachers or teaching aids.

✔ **Integration Support.**

Senso integrates with Microsoft Teams, Google Classroom and ClassLink.

OUR ESSENTIAL CHROME MODULES

Live Thumbnail View

Live Thumbnail View

Monitoring made easy, view the screens of a single or multiple Chrome devices.
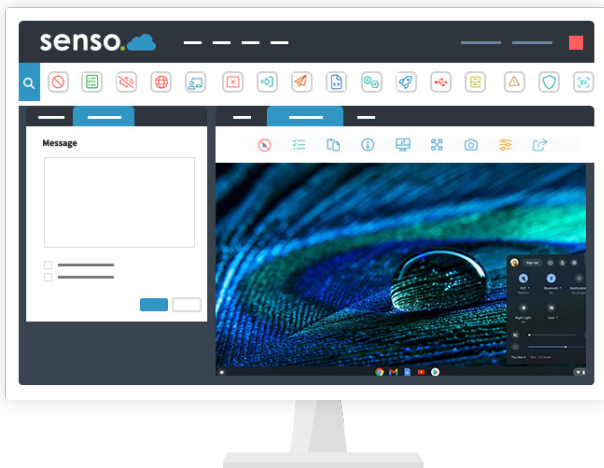

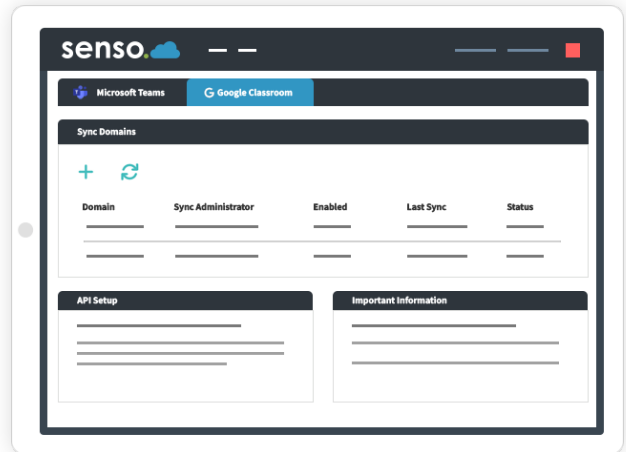

Substitute Teacher

Share groups with substitute teachers or teaching aids. Administrators can invite a substitute teacher to see all of their required classes.

Microsoft Teams Sync

Effortlessly sync your school or business' Microsoft Teams groups automatically for easy screen access.

Google Classroom Sync

Your school Google Classroom groups can be synced automatically for easy screen access.

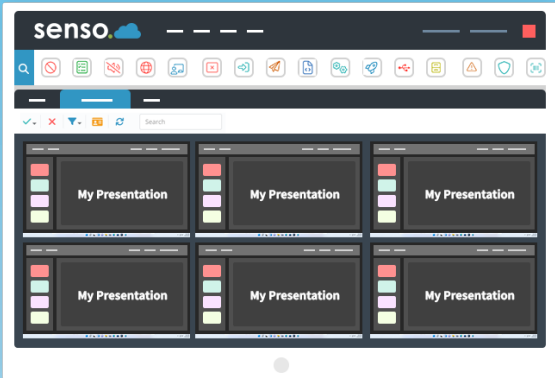

Send Message

Send a message to a single student or to multiple students. Prompt students in just a few clicks.

CLASSROOM MONITORING & MANAGEMENT

Broadcast Screen

Broadcast Screen

Allows you to share your screen or another students' screen with the rest of the class. Perfect for sharing presentations.
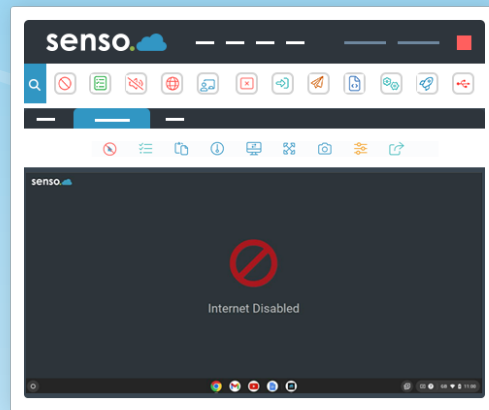

Launch

Open a specific website for the entire class to keeps students on target.
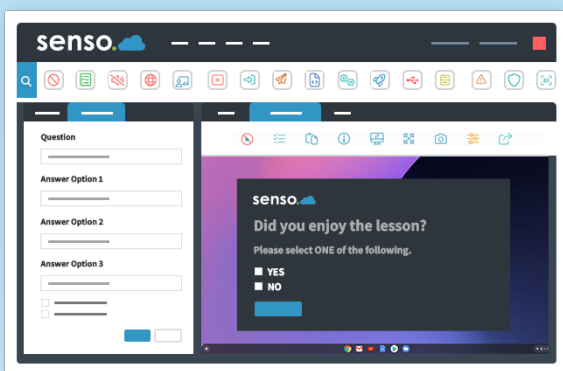

Block Sound

Mute devices in your class or change the volume level of their device to limit distractions.

Block Web

Easily disable and enable internet browsing whilst keeping essential applications connected.

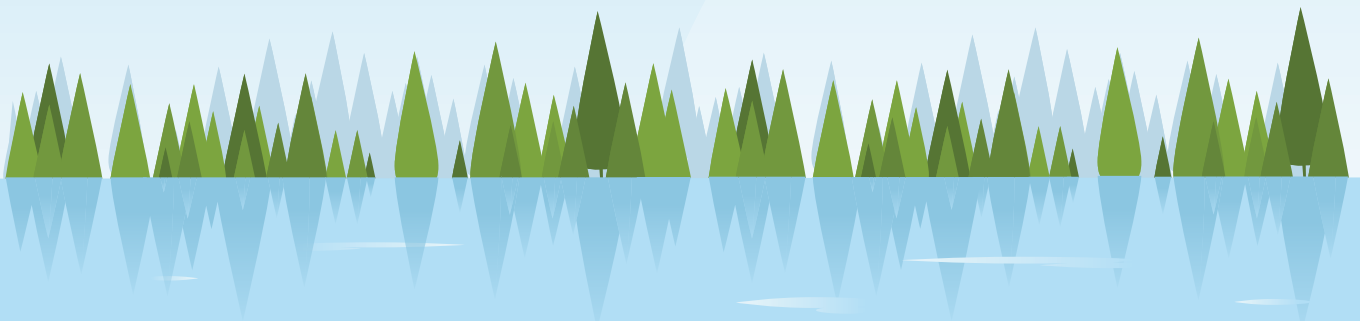

Block Web

Q&A Module

Ask the entire class a multiple choice question and see the results, or send a single student a question. You can also save or print the results.

Client Live Chat

Allows a two-way chat between a console and user. Ideal for offering remote support to students during lessons.

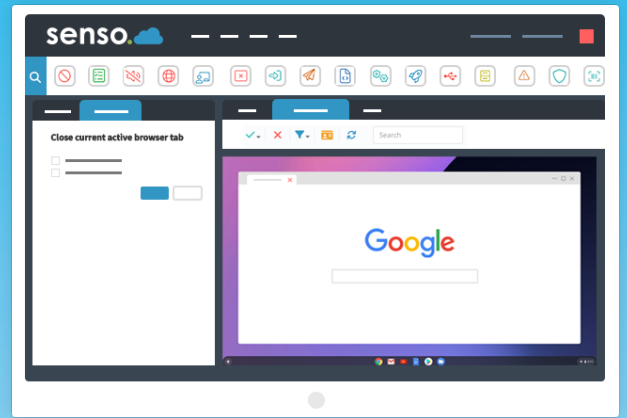

## Q&A Module

Clever Sync & ClassLink

Allows you to easily import all of your classroom groups, giving staff members access to the correct groups and live thumbnails.

Close Tab

In just a few clicks, close the active browser tab on your students' Chrome browsers to get them back to the task at hand.

← Close Tab

Lock Screen

Lock the screens of all selected devices, grab everyone's attention with a customisable message.

Send File

Access and send files from anywhere to single or multiple devices. Send File has the ability to run files as an administrator.

← Lock Screen
