

# FROM DEMAND PLANNING TO SUPPLY CHAIN EXECUTION

Advisory & Implementation Services powered by **Cluster Reply**

# CONSULTING SERVICES

## VALUE AND OBJECTIVES

### End-to-end deep expertise and knowledge of supply chain processes

From sales budget and demand planning to supply planning and execution. Covers process assessment, solution design, system configuration, testing, user training, and post go-live support

### Data modeling and statistical analysis expert team

Improve forecast accuracy to ensure tangible and measurable results

### Short Time-to-value

End-to-end implementation and go-live within 3 months thanks to our consolidated delivery approach

### Microsoft-based technologies

The service can be delivered leveraging Microsoft Dynamics 365 Finance & Operations, Microsoft Demand Planning App, Fabric, Power BI, and Power Platform to ensure scalability and transparency

# KEY FEATURES AND FUNCTIONAL COVERAGE

## DESCRIPTION
