

INTRODUCING MICROSOFT DEFENDER FOR OFFICE 365

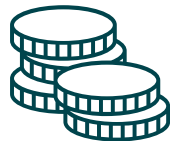

AGENDA

WHAT TO EXPECT

By the end of this session, we aim to give you an idea of the capabilities of Microsoft Defender for Office 365 and how this can help your business mitigate risk, translating to tangible business benefits.

Brief overview of capabilities

Value proposition

Typical adoption journey

Where to go from here?

At Net Reply, we understand that any technology project's success is measured by its adoption, not just its implementation. This means that end user experience is front and centre in everything we do, ensuring a balance between agility and security regardless of the technologies, processes and people we're working with.
