Microsoft Sales Copilot - QuickStart 4 Week Implementation

About Cluster Reply:

Cluster Reply is an award-winning technology consultancy that is part of the Reply group. We provide services spanning across Microsoft Dynamics 365, Microsoft Azure, AI and Power Platform solutions that unifies your IT landscape

What we offer

Embrace the power of AI and accelerate your Sales process like never before with our Microsoft Sales Copilot QuickStart offering. Based on our proven QuickStart methodology you can look forward to a **Fixed Cost, Outcome based** implementation in as little as 4 weeks.

This **Starter Kit** offering is positioned to offer a soft entry to market delivering a Minimum Viable Product without complex integrations, custom code or data migrations and large project teams to deliver.

The offer is structured around our mature **QuickStart Methodology** that provides a streamlined approach and clear deliverables that reduces project costs and speeds up delivery using a minimalist agile approach.

QuickStart

Evaluate - 1 hour
Teams meeting to evaluate service offering

Align - 2 hour workshop to capture requirements and agree on scope

Design, Build, Test - 40 hour backlog build as per scope

Train and Deploy - Training and Go Live

Why Dynamics 365?

Modern applications

Modern applications that deliver new experiences and connect with a businesses' existing systems to allow organizations to digitally transform their way. Applications that use mixed reality, the ability to take an application that overlays on the reality in front of the user, that guides them through a business process like never before. Connect to information from social networks, mobile devices, and micro-applications to drive intelligence and inform a more effective business process.

Unified data and processes

Unified data and processes that enables business without silos. Centralized data enables disparate groups to work together effectively with a single, trusted view of processes, relationships, and data. Data connectors allow thousands of systems to bring their data to a single network.

Intelligence that delivers

Intelligence that delivers actionable insight. Data in the new world includes social, relationship and productivity information in addition to insights generated by business systems. The right solution requires a unified approach that allows companies to automatically leverage their data to decide and act in real-time with expanded analytics, predictive algorithms, and automated AI.

An extensible environment

An extensible environment that enables change. The right solution establishes a data, communication, and application environment that makes it easy to evolve and extend existing business operations, while introducing technologies that enable users to create solutions where no solution exists and to expand data analysis.

▶ Key use cases

Sales
Respond to changing business requirements with a flexible platform to rapidly create new solutions and ensure old solutions are never truly finished.

Services
Understand your customers better and respond more quickly by accessing internal and external relationship data.

Finance and operations
Increase your return on investment with Microsoft's agile and efficient cloud solution.
