

# Power Platform Training

## About WM Reply

WM Reply provides world-class consultancy services to enterprise sized organisations around the world. Our award-winning teams have the skills & experience support your development and truly embed change. Start your journey with WM Reply.

## What we offer

Power Platform Training brings a structured approach to helping your organisation embrace the benefits of Power Platform. Depending on your organisational structure and digital maturity, we can structure a training approach that best fits your requirements.

App in a Day, App in half a Day, one-on-one training, or end user training across the Power Platform applications stack are all possible.

This consultative session will focus on your organisation and how best to structure a training approach that fits your long term goals, immediate needs, schedule, availability and budget.

## Empowering Your Employees

Our Power Platform Training session is designed to help you maximise the benefit gained from enabling your employees to understand and leverage Power Platform's capabilities to the greatest extent, safely and effectively.

# Why Microsoft 365?

## Save your company money

Microsoft 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

## Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

## Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

## Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

## Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

## Key use cases

### Business-class email

Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

### Cloud storage

Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

### Meet online

Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready Hadoop service.

### Collaborate, chat privately

Accelerate your mobile app development by using a backend hosted on Microsoft Azure.

## Microsoft 365

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.
