

## AI-powered simplicity for ESG, for any company size!

Powered by Artificial Intelligence, ESGenius! ensures compliance with new and upcoming requirements (CSRD, EU Taxonomy, NFRD, SFDR, CSDD, IFRS), while optimizing resource efficiency.

### Automated Reporting to:

**Global Sustainability Frameworks:** EFRAG & ESRS, GRI, SASB, CDP-CC, TCFD, IFRS, GHG Protocol, Value Reporting Foundation

**Environmental Systems:** EMAS, ISO 14064, ISO 14001, ISO 50001

**ESG Rating Agencies & Observatories:** MSCI, Ecovadis, ISS ESG, ATHEX ESG Data Portal, esgr, ESG Tracker by HDB, National Sustainability Observatory

### Automatic Compliance

ESGenius! incorporates all new and upcoming requirements (*CSRD, EU Taxonomy, NFRD, SFDR, CSDD, IFRS*) and Sustainability frameworks (*GRI, SASB, CDP, ESRS, etc.*) in one database with over 2000 data points.

### Collect Once, Report Everywhere

ESGenius! matches each data point to all relevant frameworks, allowing you to collect your data once and automatically report it anywhere you select.

### Let the AI do the heavy lifting

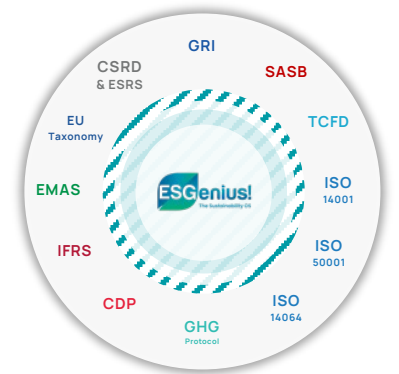

ESGenius! incorporates Artificial Intelligence (AI) and Robotic Process Automation (RPA) modules to reduce complexity and optimize business resources.

### Collecting & Verifying Data with AI

ESGenius! utilizes Artificial Intelligence and software robotics modules to automatically collect and verify Sustainability Data from any structured document / system / software / database

### Generate Reports with AI

Generate high quality, customized and editable ESG Reports with the help of Generative Artificial Intelligence technologies and AI language models trained by ResNovae ESG Experts.

### ESGenius! - The Sustainability OS powers the engine of Sustainability:

The Athens Stock Exchange (ATHEX) uses ESGenius! to power the **ATHEX ESG Data Portal** and collect ESG Data from Greek Listed Companies

The Hellenic Development Bank (HDB) uses ESGenius! to power **ESG Tracker by HDB**, the first National ESG Observatory for SMEs

ESGenius! powers the Greek National Carbon Footprint Database of the Ministry of Environment and Energy and NECCA.

The Greek Ministry of Environment and Energy has built the National ESG Observatory for Greek Companies, based on ESGenius!
