

# ResTech AI

Unveiling Secure Generative AI for All: Through user-friendly ezGPT™ platform, our mission is to unlock the power of Generative AI while prioritizing security, privacy and trust. This empowers businesses and agencies to leverage its transformative potential

# EZGPT

Chief AI  
Officer

## Target Audience

Federal, State, and Local Government Agencies  
Government Contractors  
Businesses of all sizes seeking to leverage Generative AI

## Challenge Addressed

Security and compliance concerns  
Deployment difficulties  
Lack of internal expertise

## Solution Offered

Designed for ease of use, with intuitive interfaces and minimal technical expertise required  
Built with secure-by-default configuration and FIPS compliant crypto-module for maximum data protection  
Includes ATO-ready OSCAL artifacts and comprehensive documentation to facilitate smooth compliance navigation  
An integrated AI-powered chatbot provides expert guidance to users, developers, and system administrators

## Key Differentiators

**Pre-built Platform:** Eliminates the need for complex development and customization  
**Seamless Deployment:** Offered in standardized formats (VM, Container, helmchart) for integration into existing infrastructure  
**Unparalleled Security:** Prioritizes data security with robust security features and compliance support
