

RETAILYS

european e-commerce cloud

**10 e-shops
in one administration**

Expand all around the world!

OUR SERVICES

SALES CHANNELS MANAGEMENT

Create e-shops, each in different languages and currencies. Open accounts in global marketplaces - Amazon, eBay or Asian marketplaces are visited by millions of users worldwide!

FULFILMENT & SUPPLIERS

Connect to suppliers, import products, synchronize stocks automatically and keep thousands of products on your e-shops! Orders can be forwarded directly from the administration to suppliers!

POS

If you have B&M stores, issue the bills straight from the Retailys! Everything is connected with the inventory of products. Customers and loyalty cards are also a matter of course.

INVENTORY MANAGEMENT

Parameters, descriptions, localization, pricing, stock availability, missing items or detailed categorization. And all of it for all sales channels from one place!

USERS & CRM

Keep track of customers of e-shops. Keep track their communication history, track their orders. Activate chatbot on sites!

PAYMENTS

Utilize different payment methods on each site. Combine paychecks, payment gateways, deferred payments, mobile payments and many other fine-tuning services. Adjust to your customers as much as possible!

ORDER MANAGEMENT

Orders from all e-shops and other channels are displayed in one place. Edit their status, create invoices and inform the customer about the order!

REPORTING

Advanced reporting tools will let you know about the performance of individual sales channels, revenues, margins, visit rates and the success of marketing tools.

SHIPPING & LOGISTICS

Set up different transport services, different prices or delivery times depending on your destination. You can also take advantage of links to 3PL centers.
